Social Transformations in India, Myanmar, and Thailand: Volume I Chosein Yamahata, Donald M. Seekins, Makiko Takeda, 2021-01-02 This book focuses on the different challenges and opportunities for social transformation in India Myanmar and Thailand by centering communities and individuals as the main drivers of change In doing so it includes discussions on a wide array of issues including women's empowerment and political participation ethno religious tensions plurilingualism education reform community based healthcare climate change disaster management ecological systems and vulnerability reduction Two core foundations are introduced for ensuring broader transformations The first is the academic diplomacy project a framework for an engaged academic enquiry focusing on causative curative transformative and promotive factors The second is a community driven collective struggle that serves as a grassroots possibility to facilitate positive social transformation by using locally available resources and enabling the participation of the resident population As a whole the book conveys the importance of a diversification of engagement at the grassroots level to strengthen the capacity of individuals as decisive stakeholders where the process of social transformation makes communities more interconnected interdependent multicultural and vital in building an inclusive society *Sacramento on the Air: How the McClatchy Family Revolutionized West Coast Broadcasting* Annette Kassis, 2015-10-19 In 1921 a chance encounter with a radio receiver sent Sacramento Bee newspaperman Carlos McClatchy on a determined path to break into broadcasting Ushered by the enterprising McClatchy family the Bee became the first Pacific Coast newspaper to enter the radio business

For decades broadcasting in Sacramento was shaped by the brilliant but fatally flawed Carlos McClatchy his strong willed micromanaging father C K and his sister Eleanor McClatchy who sacrificed her own aspirations for the sake of the family business From a single five watt station the family built a large media company established a radio network with William Randolph Hearst and helped shape media in the American West Historian Annette Kassis tells the fascinating story of the pivotal McClatchy family and the path they charted through the ether above Sacramento Time, Language, and Ontology M. Joshua Mozersky, 2015-01-29 This book brings together in a novel way an account of the structure of time with an account of our language and thought about time Joshua Mozersky argues that it is possible to reconcile the human experience of time which is centred on the present with the objective conception of time according to which all moments are intrinsically alike He defends a temporally centreless ontology along with a tenseless semantics that is compatible with and indeed helps to explain the need for tensed language and thought This theory of time also it is argued helps to elucidate the nature of change and temporal passage neither of which need be denied nor relegated to the realm of subjective experience only The book addresses a variety of topics including whether the past and future are real whether temporal passage is a genuine phenomenon or merely a subjective illusion how the asymmetry of time is to be understood the nature of representation how something can change its properties yet retain its identity and whether objects are three dimensional or four dimensional It is a wide ranging examination of recent issues in metaphysics philosophy of language and the philosophy of science and presents a compelling picture of the relationship of human beings to the spatiotemporal world **Appleton's Magazine**, 1908 **Machinery Market**, 1926 Democracy's News G. Michael Killenberg, Rob Anderson, 2023-02-20 Since the Founding America's faith in a democratic republic has depended on citizens who could be trusted to be communicators Vigorous talk about equality rights and collaboration fueled the revolution the Declaration of Independence and the Constitution with its amendments In a republic the people set the terms for their lives not individually but in community The genius of keeping it alive exists in how everyday citizens talk and listen write and read for a common good Dialogue and deliberation rather than an accumulation of individual preferences sustains a republic yet a diminished and scarred institution of journalism jeopardizes citizens access to shared and truthful information A disturbing what's in it for me attitude has taken over many citizens and a creeping autocratic sense of dismissive accusation too often characterizes the political style of elected officials The basic fuel for democracy is the willingness of informed citizens to take each other seriously as they talk about political choices Once we begin to clam up build walls and dismiss each other we unravel the threads tying us to the Founders vision of a republic A free press and free speech become meaningless if not supported by sustained listening to multiple positions There are those who profit by dividing citizens into two camps a comfortable us versus a scary them They make their case with accusations and often with lies They warp the very meaning of communication hoping citizens never truly discover each other's humanity Democracy's News discusses today's problems of public

communication in the context of history law and interpersonal life News should not be something to dread mistrust or shun Aided by reliable factual journalism citizens can develop a community based knowledge to cope with social issues great and small They come to treat neighbors and strangers as more than stereotypes or opponents They become collaborators with whom to identify and sustain a working republic where news citizenship and public discourse merge
