Nov 2014 Tourism Memorandum:

Inter-Regional Place Branding Sebastian Zenker, Björn P. Jacobsen, 2015-04-01 This book examines and clarifies key aspects of regional branding with the special focus of inter regional brands Today regions are in strong competition for companies tourists and most of all talent In order to differentiate one region from another regional developers politicians and planners increasingly focus on establishing the region as a brand This is by no means easy since places are complex systems of geographical abstractions in which each place is understood in relation and contrast to other geographical entities In doing so regions not only differentiate but also cooperate within one country or between countries building so called Inter Regional Brands with an even higher degree of complexity Accordingly this volume provides a theoretically well informed but practically oriented overview of this phenomenon including numerous cases and best practices As such it will strongly appeal to both academics and practitioners in the field Mozambique's foreign policy towards South Africa Paulo Mateus

Wache, 2022-01-01 This Book discusses the Mozambique s foreign policy framework in general and towards South Africa in particular searching to understand why it has been characterized by the hostility friendship dichotomy The Book argues that asymmetry alone cannot explain the occurrence of the dichotomy as suggested by Womack s asymmetry theory In the case of Mozambique s foreign policy the dichotomy is caused by combination of factors namely power asymmetry ideological differences leadership perceptions economic disagreements and economic ties However it is highlighted that power asymmetry is the main factor of the dichotomy This complexity and amalgamations of causes of the dichotomy makes it a permanent and distinctive feature of Mozambique s foreign policy towards South Africa Thus the major contribution of this book is twofold First it presents a detailed and comprehensive analysis of Mozambique s foreign affairs as they have interacted with South Africa Second by applying asymmetry theory to Mozambique the study makes a significant theoretical contribution to understanding the agency of the smaller side in bilateral asymmetric relationships The Europa Directory of International Organizations 2024
