Ensuring Innovation in Diagnostics for Bacterial Infection Morel C., McClure L., Edwards S., Goodfellow

V., Sandberg D., Thomas J., 2016-04-18 The inappropriate use of antibiotics is a primary cause of the ongoing increase in drug resistance amongst pathogenic bacteria The resulting decrease in the efficacy of antibiotics threatens our ability to combat infectious diseases Rapid point of care tests to identify pathogens and better target the appropriate treatment could greatly improve the use of antibiotics Yet there are few such tests currently available or being developed despite the rapid pace of medical innovation Clearly something is inhibiting the much needed development of new and more convenient diagnostic tools This study delineates priorities for developing diagnostics to improve antibiotic prescription and use with the goal of managing and curbing the expansion of drug resistance It calls for new approaches particularly in the provision of diagnostic devices and in doing so outlines some of the inadequacies in health science and policy initiatives that have led to the dearth of such devices The authors make the case that there is a clear and urgent need for innovation not only in the technology of diagnosis but also in public policy and medical practice to support the availability and use of better diagnostic tools This book explores the complexities of the diagnostics market from the perspective of both supply and demand unearthing interesting bottlenecks some obvious some more subtle It calls for a multifaceted and broad policy response and an overhaul of current practice so that the growth of bacterial resistance can be stemmed

[The World Turned Upside Down](#) Yang Jisheng,2021-01-19 Yang Jisheng s *The World Turned Upside Down* is the definitive history of the Cultural Revolution in withering and heartbreaking detail As a major

political event and a crucial turning point in the history of the People's Republic of China the Great Proletarian Cultural Revolution 1966-1976 marked the zenith as well as the nadir of Mao Zedong's ultra-leftist politics. Reacting in part to the Soviet Union's revisionism that he regarded as a threat to the future of socialism, Mao mobilized the masses in a battle against what he called bourgeois forces within the Chinese Communist Party (CCP). This ten-year-long class struggle on a massive scale devastated traditional Chinese culture as well as the nation's economy. Following his groundbreaking and award-winning history of the Great Famine, Tombstone Yang Jisheng here presents the only history of the Cultural Revolution by an independent scholar based in mainland China and makes a crucial contribution to understanding those years lasting influence today. *The World Turned Upside Down* puts every political incident, major and minor, of those ten years under extraordinary and withering scrutiny and arrives in English at a moment when contemporary Chinese governance is leaning once more toward a highly centralized power structure and Mao-style cult of personality. Government Publications Great Britain. Her Majesty's Stationery Office, 1940. The Rocket and the Reich Michael J. Neufeld, 2013-09-10. WINNER OF THE DEXTER PRIZE OF THE SOCIETY FOR THE HISTORY OF TECHNOLOGY. Launched by the Third Reich in late 1944, the first ballistic missile, the V-2, fell on London, Paris, and Antwerp after covering nearly two hundred miles in five minutes. It was a stunning achievement, one that heralded a new age of ballistic missiles and space launch vehicles. Michael J. Neufeld gives the first comprehensive and accurate account of the story behind one of the greatest engineering feats of World War II. At a time when rockets were minor battlefield weapons, Germany ushered in a new form of warfare that would bequeath a long legacy of terror to the Cold War as well as the means to go into space. Both the US and USSR's rocket programs had their origins in the Nazi state. **Nuclear Non-Proliferation in International Law - Volume III** Jonathan L. Black-Branch, Dieter Fleck, 2016-11-14. This third volume of the book series on Nuclear Non-Proliferation in International Law focuses on the development and use of nuclear energy for peaceful purposes within a contemporary global context, an interdependent characteristic of the Non-Proliferation Treaty along with disarmament and non-proliferation. The scholarly contributions in this volume explore this interrelationship, considering the role of nation-states as well as international organizations such as the International Atomic Energy Agency (IAEA) in monitoring and implementing the Treaty. The 2015 Nuclear Accord with Iran and its implementation is also discussed, highlighting relevant developments in this evolving area. Overall, the volume explores relevant issues, ultimately presenting a number of suggestions for international cooperation in this sensitive field where political discussion often dominates over legal analysis. The important tasks of limiting the proliferation of nuclear weapons, ensuring the safety and security of peaceful uses of nuclear energy, and achieving nuclear disarmament under strict and effective international control, calls for the interpretation and application of international legal principles and rules in their relevant context, a task that this book series endeavours to facilitate whilst presenting new information and evaluating current developments in this area of international law. Jonathan L. Black-Branch is Dean of Law and Professor of International

and Comparative Law at Robson Hall Faculty of Law University of Manitoba a Barrister at One Garden Court London a Magistrate in Oxfordshire a Justice of the Peace for England a Member of Wolfson College University of Oxford and Chair of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Member of the Advisory Board of the Amsterdam Center for International Law ACIL and Rapporteur of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Contemporary International Law *Cancer Therapy: The Challenge of Handling a Double-Edged Sword* Raquel Abalo, Kulmira Nurgali, John A.
