Alastair Hamilton, Alexander Hamilton, 1981-12 Although deconstruction has become a popular catchword as an intellectual movement it has never entirely caught on within the university For some in the academy deconstruction and Jacques Derrida in particular are responsible for the demise of accountability in the study of literature Countering these facile dismissals of Derrida and deconstruction Herman Rapaport explores the incoherence that has plagued critical theory since the 1960s and the resulting legitimacy crisis in the humanities Against the backdrop of a rich informed discussion of Derrida s writings and how they have been misconstrued by critics and admirers alike The Theory Mess investigates the vicissitudes of Anglo American criticism over the past thirty years and proposes some possibilities for reform **Margaret Sanger** Jean H. Baker, 2011-11-08 Undoubtedly the most influential advocate for birth control even before the term existed Margaret Sanger ignited a movement that has shaped our society to this day Her views on reproductive rights have made her a frequent target of conservatives and so called family values activists Yet lately even progressives have shied away from her citing socialist leanings and a purported belief in eugenics as a blight on her accomplishments In this captivating new biography the renowned feminist historian Jean H Baker rescues Sanger from such critiques and restores her to the vaunted place in history she once held Trained as a nurse and midwife in the gritty tenements of New York s Lower East Side Sanger grew increasingly aware of the dangers of unplanned pregnancy both physical and psychological A botched abortion resulting in the death of a poor young mother catalyzed Sanger and she quickly became one of the loudest voices in favor of sex education and contraception The movement she started spread across the country eventually becoming a vast international organization with her as its spokeswoman Sanger s staunch advocacy for women s privacy and freedom extended to her personal life as well After becoming a wife and mother at a relatively early age she abandoned the trappings of home and family for a globe trotting life as a women s rights activist Notorious for the sheer number of her romantic entanglements Sanger epitomized the type of free love that would become mainstream only at the very end of her life That she lived long

enough to see the creation of the birth control pill which finally made planned pregnancy a reality is only fitting *Creating a National Spirit* William Leslie Renwick,2004 By exploring New Zealand's centennial celebration in 1940 this volume paints a vivid picture of New Zealanders and how they perceived themselves and their relationships to the world at that time Detailing the Centennial Exhibition Wellington trade fair and various other public commemorations special publications of dictionaries and pictorial surveys and cultural and art exhibits this text fully examines how the country and citizens commemorated their history and recognized new opportunities in the changing world landscape *Attlee* Nick Thomas-Symonds,2023-10-05 Clement Attlee the man who created the welfare state and decolonised vast swathes of the British Empire including India has been acclaimed by many as Britain's greatest twentieth century Prime Minister Yet somehow Attlee the man remains elusive and little known How did such a moderate modest man bring about so many enduring changes What are the secrets of his leadership style And how do his personal attributes account for both his spectacular successes and his apparent failures When Attlee became Prime Minister in July 1945 he was the leader of a Labour party that had won a landslide victory With almost 50 percent of the popular vote Attlee seemed to have achieved the platform for Labour to dominate post war British politics Yet just 6 years and 3 months after the 1945 victory and despite all Attlee's governments had appeared to achieve Labour was out of office condemned to opposition for a further 13 years This presents one of the great paradoxes of twentieth century British history how Attlee's government achieved so much but lost power so quickly But perhaps the greatest paradox was Attlee himself Attlee's obituary in The Times in 1967 stated that much of what he did was memorable very little that he said This new biography based on extensive research into Attlee's papers and first hand interviews examines the myths that have arisen around this key figure of British political life and provides a vivid portrait of the man and his politics *American Negro Slavery*,1969 *A History of Negro Slavery in New York* Edgar J. McManus,2001-05-01 This book traces the origins and development of New York's slave system from its Dutch beginnings in New Netherland to its demise and legal extinction in the late eighteenth century Preface *Blacks in White America Before 1865* Robert V.
