Arete and the Odyssey's Poetics of Interrogation Justin Arft, 2022-09-01 Arete and the Odyssey's Poetics of Interrogation explores how the enigmatic Phaeacian queen Arete is at the heart of an epic scale poetics of interrogation used throughout the Odyssey to negotiate Odysseus' kleos or epic renown Arete's interrogation of Odysseus has been especially problematic in scholarship but diachronic and synchronic analysis of similar interrogations across Indo-European Orphic and Greek epigrammatic corpora show that the stranger's interrogation is a formula that demands performance and negotiation of status Within the Odyssey this interrogation is part of an intraformular network used to generate kleos and the queen's question initiates the longest and most complex negotiation of Odysseus' status in epic and memory Arete's role as interrogator not only explains her strange authority and resonance with both Penelope and comparative afterlife figures but it also establishes a gendered agonistic tension between she and her husband Alkinoos that influences the structure genre and narratology of performances across the Phaeacian episode This book reinterprets the Odyssey's central episode and challenges several assumptions about Nausikaa and Alkinoos' famed hospitality even demonstrating how the Apologue is organized as a response to competing inquiries into Odysseus' fundamental status in tradition The Odyssey ultimately

navigates away from Odysseus public reputation and roots his status in private memories and Arete's carefully arranged interventions signal the larger process by which the Odyssey immortalizes Odysseus in poetry as a nostos hero. The queen and her question invite new applications of oral poetics that shed light on the structure, composition and reperformance of the Odyssey.

The Global Lab Adam Fejerskov, 2022-06-16 The Global Lab tells the story of a group of organizations and corporations using low income countries as a laboratory. It reveals experiments with untested technologies, biometric humanitarian solutions and radical methodologies for social change. The book maps out the political, institutional and ethical coordinates of emergent transnational practices of experimentation, asking where and how this movement works while unfolding the human philosophical and political consequences of its ideas and interventions. The book takes the reader through Silicon Valley, Africa and Asia to understand the tangible and transformative implications of contemporary human experimentation. It follows a set of main protagonists from the Bill and Melinda Gates Foundation to experimental economists known as the randomistas to humanitarian organizations and pharmaceutical companies. These actors form a movement inspired by the logic of Silicon Valley about the need for fast paced radical change and societal disruption, technological innovation as progress and the privatization and commercialization of the human mind and body. Ultimately the book examines the inequality of experimentation that is found in the erection of walls between us and them and the imagined universal and often unquestioned value of scientific and technological progress.
