Is it the **JOURNEY** or the **DESTINATION**?

If attending high school is a journey, then the ultimate destination is graduation. As you strive to cross that finish line, you'll face new experiences, build friendships, and even run into some frustrating roadblocks. As you consider this journey, what do you think is more important—reaching your goal and clutching that diploma in your hand, or taking time to appreciate the many moments (both good and bad) that will lead up to graduation day?

ACTIVITY With a classmate, think of books, movies, or TV shows that depict a journey of some sort—whether it's a quest to find a long-lost family member, a struggle to make it safely back home, or a mission to fulfill an important dream. Which seems more important to the story, the destination the character strives to reach or the journey itself?

Odyssey Holt Mcdougal:

Carceral Citizens Caroline M. Parker, 2025-02-10 A nuanced take on how carceral expansions are changing labor and social life In *Carceral Citizens* anthropologist Caroline M Parker offers an ethnographic portrait of therapeutic communities in Puerto Rico the oldest colony in the Americas As nonprofits nested within the carceral state therapeutic communities serve as reeducation and recovery centers for the mostly male drug offenders who serve out their sentences engaged in manual labor and prayer The most surprising aspect of these centers however is that their graduates often remain long after the completion of their term working as self appointed peer counselors in a mixture of volunteer and low wage positions Parker seeks to explain this dynamic by showing how in these therapeutic communities criminalized men find new and meaningful ways of living in the shadow of the prison Through their participation in the day to day functioning of the centers they discover and cultivate alternative forms of belonging livelihood and citizenship despite living within the restrictions of the carceral state Situating her study against the backdrop of Puerto Rico s colonial history and with findings that extend across Latin America Parker challenges common assumptions about confinement labor and rehabilitation By delving into lives shaped by the convergence of imperialism the carceral state and self help she offers a fresh understanding of the transformations of labor and social life brought about by mass incarceration

The Language Police Diane Ravitch, 2007-12-18 If you re an actress or a coed just trying to do a man size job a yes man who turns a deaf ear to some sob sister an heiress aboard her yacht or a bookworm enjoying a boy s night out Diane Ravitch s internationally acclaimed *The Language Police* has bad news for you Erase those words from your vocabulary Textbook publishers and state education agencies have sought to root out racist sexist and elitist language in classroom and library materials But according to Diane Ravitch a leading historian of education what began with the best of intentions has veered toward bizarre extremes At a time when we celebrate and encourage diversity young readers are fed bowdlerized texts devoid of the references that give these works their meaning and vitality With forceful arguments and sensible solutions for rescuing American education from the pressure groups that have made classrooms bland and uninspiring *The Language Police* offers a powerful corrective to a cultural scandal

Patchwork of World History in Texas High Schools Stephen Jackson,2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States **Tennessee Williams** John Lahr,2014-09-04 National Book Critics Circle Award Winner Biography Category

National Book Award Finalist 2015 Winner of the Sheridan Morley Prize for Theatre Biography American Academy of Arts and Letters Harold D Vursell Memorial Award A Chicago Tribune Best Books of 2014 USA Today 10 Books We Loved Reading Washington Post 10 Best Books of 2014 The definitive biography of America s greatest playwright from the celebrated drama critic of The New Yorker John Lahr has produced a theater biography like no other Tennessee Williams Mad Pilgrimage of the Flesh gives intimate access to the mind of one of the most brilliant dramatists of his century whose plays reshaped the American theater and the nation s sense of itself This astute deeply researched biography sheds a light on Tennessee Williams s warring family his guilt his creative triumphs and failures his sexuality and numerous affairs his misreported death even the shenanigans surrounding his estate With vivid cameos of the formative influences in Williams s life his fierce belittling father Cornelius his puritanical domineering mother Edwina his demented sister Rose who was lobotomized at the age of thirty three his beloved grandfather the Reverend Walter Dakin Tennessee Williams Mad Pilgrimage of the Flesh is as

much a biography of the man who created *A Streetcar Named Desire*, *The Glass Menagerie* and *Cat on a Hot Tin Roof* as it is a trenchant exploration of Williams's plays and the tortured process of bringing them to stage and screen. The portrait of Williams himself is unforgettable: a virgin until he was twenty-six, he had serial homosexual affairs thereafter as well as long-time bruising relationships with Pancho Gonzalez and Frank Merlo. With compassion and verve, Lahr explores how Williams's relationships informed his work and how the resulting success brought turmoil to his personal life. Lahr captures not just Williams's tempestuous public persona but also his backstage life where his agent Audrey Wood and the director Elia Kazan play major roles, and Marlon Brando, Anna Magnani, Bette Davis, Maureen Stapleton, Diana Barrymore, and Tallulah Bankhead have scintillating walk-on parts. This is a biography of the highest order: a book about the major American playwright of his time, written by the major American drama critic of his time.

Antiquity Now Thomas E. Jenkins, 2015-05-14. Written in a lively and accessible style, *Antiquity Now* opens our gaze to the myriad uses and abuses of classical antiquity in contemporary fiction, film, comics, drama, television, and even internet forums. With every chapter focusing on a different aspect of classical reception, including sexuality, politics, gender, and ethnicity, this book explores the ideological motivations behind contemporary American allusions to the classical world. Ultimately, this kaleidoscope of receptions, from calls for marriage equality to examinations of gang violence to passionate pleas for peace or war, reveals a classical antiquity that reconfigures itself daily as modernity explains itself to itself through ever-expanding technologies and media. *Antiquity Now* thus examines the often surprising redeployment of the art and literature of the ancient world, a geography charged with especial value in the contemporary imagination.
