On Rock Or Sand Firm Foundations For Britain S Future:

On Rock or Sand? John Sentamu, 2015-01-15 The aim of this book is nothing less than to assess and reset the terms of the debate about the kind of nation we want to be It asks What are the essential values we need for building a just sustainable and compassionate society in which all can participate Chapters by expert economic political religious and social thinkers including contributions by Lord Adonis Sir Philip Mawer Oliver O Donovan Andrew Sentance Julia Unwin and Archbishop Justin Welby Addresses crucial questions about the moral principles that undergird the way Britain is governed Written for people of any or no religious background who are concerned about the values that influence our political attitudes and decisions Faced with a period of change as great as that of the 1930s the continued cohesion of our society is at risk as expectations of ever rising prosperity are challenged and many struggle to make ends meet It is within this context that the contributors to this book examine some fundamental questions How can we draw upon the wellsprings of social solidarity today What would a new social contract a new understanding about the respective rights and obligations of the individual citizen and the state look like today At a time when budgets and other resources are being reduced what are the principles we should adopt to distribute them In short what values can the Christian faith bring to the table to help address the problems we face today These and other core questions about the kind of society we seek lie at the heart of this book

Good for Society Martin Parsons, 2020-02-20 Good for Society Christian Values and Conservative Politics In Good for Society Martin Parsons has written a book well worthy of its sub title Christian Values and Conservative Politics Good for Society is a robust defence of both our Christian heritage and the Conservative Party Rt Hon Lord Tebbit CH former Chairman of the Conservative Party Secretary of State for Trade and Industry and Secretary of State for Employment This is a magnificent detailed and authoritative examination of the relevance of Christian teaching to today s Conservative Party Even when you do not agree with a deduction you are still challenged Rt Hon Ann Widdecombe former Conservative MP and Shadow Home Secretary Dr Parsons brings together expertise in politics careful biblical study research in Islam and experience of life under the Taliban in Afghanistan He mounts a powerful case for identifying Christian values and view of the world in the development of the laws liberties and institutions of the English speaking peoples He also identifies these values in the approaches of Conservative politics and politicians These must be recovered in order to develop a narrative and values to address the threat of Islamism which seeks to impose sharia both subtly and violently Liberal secularists who might disagree with Dr Parsons need to demonstrate a more convincing case than he presents on all fronts Canon Dr Chris Sugden Oxford Centre for Religion and Public Life Christians in many parts of the world who are influenced by progressivism reject Conservative values on social policy by default They uncritically assume that big government redistribution of wealth and other leftist policies are closer to the teaching of Scripture while capitalism wealth creation individualism and other Conservative values represent greed oppression and injustice Dr Martin Parsons turns this myth on its head Exploring the

great philosophical and historical traditions of Conservatism and expounding the teaching of the Bible he demonstrates that Conservatism is firmly rooted in the Judeo Christian worldview Dr Parsons has written the definitive book on Conservatism and Christianity I wish this book were written years ago It would have saved me from years of wandering in the desert of progressivism Rev Dr Jules Gomes theologian and political journalist [The Edited Collection](#) Peter Webster,2020-06-04 Edited collections are widely supposed to contain lesser work than scholarly journals to be incoherent as volumes no more than the sum of their parts and to be less visible to potential readers once published It is also often taken as axiomatic that those who make decisions in relation to hiring promotion tenure and funding do so agree To publish in or edit an essay collection is thought to risk being penalised for the format before even a word is read After examining the origins of this critique this Element explores the modern history of the edited collection and the particular roles it has played It examines each component part of the critique showing that they are either largely unfounded or susceptible of solution It proposes the edited collection as a model of one possible idea of scholarly community collaboration trust and mutual obligation in pursuit of a wider good **Theology Reforming Society** Stephen Spencer ,2017-10-30 Theology Reforming Society tells the story of Anglican social theology from its roots in the writings and work of F D Maurice and the Christian Socialists Charles Kingsley and John Ludlow and on to the work of William Temple This is an important and comprehensive account for all those interested in Anglican theology and Christian ethics [New Frontiers of the Capability Approach](#) Flavio Comim,Shailaja Fennell,P. B. Anand,2018-10-25 For over three decades the capability approach proposed and developed by Amartya Sen and Martha Nussbaum has had a distinct impact on development theories and approaches because it goes beyond an economic conception of development and engages with the normative aspects of development This book explores the new frontiers of the capability approach and its links to human development in three main areas First it delves into the philosophical foundations of the approach re examining its links to concepts of common good collective agency and epistemic diversity Secondly it addresses its operational frontier aiming to give inclusive explanations of some of the most advanced methods available for capability researchers Thirdly it offers a wide range of the applications of this approach as carried out by a mix of renowned capability scholars and researchers from different disciplines This broad interdisciplinary range includes the areas of human and sustainable development inequalities labour markets education special needs cities urban planning housing social capital and happiness studies among others [A Voice to Be Heard](#) Richard Higginson,2017-09-21 Christian entrepreneurs are at the heart of the church s mission They are dynamic innovative followers of Christ who are making a major contribution to our society through the companies they run the products they make and the people they influence A Voice to Be Heard explains and celebrates their work mostly through their own words Theological educator Richard Higginson and former retail entrepreneur Kina Robertshaw have worked together on this ground breaking study based on interviews with fifty entrepreneurs Exploring issues of vision creativity relationships stewardship integrity prayer and

perseverance they show how people running their own businesses are exercising crucial roles in building God's kingdom. With the church's encouragement they have the potential to do even more. Practical biblical informative this book conveys vividly the voices of Christian entrepreneurs. Lord Griffiths of Fforestfach This book is a treasure. From car dealerships to toy stores A Voice to Be Heard visits particular entrepreneurs at work and reveals their leadership lessons for us all. Eve Poole This book has truth with flesh on. It is a delicious mixture of story and biblical reflection a truly inspiring read. Dr R Paul Stevens

Heritage Futures Rodney Harrison, 2020-07-28 Preservation of natural and cultural heritage is often said to be something that is done for the future or on behalf of future generations but the precise relationship of such practices to the future is rarely reflected upon. *Heritage Futures* draws on research undertaken over four years by an interdisciplinary international team of 16 researchers and more than 25 partner organisations to explore the role of heritage and heritage like practices in building future worlds. Engaging broad themes such as diversity transformation profusion and uncertainty *Heritage Futures* aims to understand how a range of conservation and preservation practices across a number of countries assemble and resource different kinds of futures and the possibilities that emerge from such collaborative research for alternative approaches to heritage in the Anthropocene. Case studies include the cryopreservation of endangered DNA in frozen zoos nuclear waste management seed biobanking landscape rewilding social history collecting space messaging endangered language documentation built and natural heritage management domestic keeping and discarding practices and world heritage site management

Blessed are the Poor? Laurie Green, 2015-06-30 Listening intently to what the poor have to say is Laurie Green's way into a new study of Jesus' most famous Beatitude. Blessed are the Poor. Combining years of pavement level experience with informed biblical analysis he sets out for us how the perspective of the poor opens us up to new biblical and theological insights. These issue in a radical rethink about mission and what it means to be Church in a post secular society. The book introduces us to Britain's poorest housing estates and uses the radical edge of contextual theology to present a prophetic challenge to each one of us and to a Church which is reluctant to respond seriously to the challenges of the Beatitudes

The Universities We Need Stephen Heap, 2016-10-14 Increasing numbers of young adults go to university. This book explores contemporary understandings of what universities are for what impact they might be having on their students and what visions of life and society are driving them. It criticises a narrow view of higher education which focuses on serving the economy. It argues that for the sake of the common and individual good universities need to be about forming citizens and societies as well as being an economic resource. It does so in the light of theological perspectives mainly from the Christian but also from the Muslim faith and has a global as well as a British perspective. It brings together key thinkers in theology and higher education policy including Rowan Williams David Ford Mike Highton and Peter Scott to present a unique perspective on institutions which help shape the lives of millions

Counsels of Imperfection Edward Hadas, 2020-10-23 For more than a century the teaching authority of the Catholic Church has attempted to walk along with

the modern world criticizing what is bad and praising what is good *Counsels of Imperfection* described the current state of that fairly bumpy journey The book is divided into 11 chapters First comes an introduction to ever changing modernity and the unchanging Christian understanding of human nature and society Then come two chapters on economics including a careful delineation of the Catholic response past and present to socialism and capitalism The next topic is government with one chapter on Church and State another on War and a third that runs quickly through democracy human rights the welfare state crimes and punishments including the death penalty anti-Semitism and migration *Counsels of Imperfection* then dedicates two chapters on ecology including an enthusiastic analysis of Francis's technocratic paradigm The last topic is the family teaching which presents the social aspects of the Church's sexual teaching A brief concluding chapter looks at the teaching's changing response to the modern world and at the ambiguous Catholic appreciation of the modern idea of progress For each topic *Counsels of Imperfection* provides biblical historical and a broad philosophical background Thomas Aquinas appears often but so does G W F Hegel The goal is not only to explain what the Church really says but also how it got to its current position and who it is arguing with In the spirit of a doctrine that is always in development *Counsels of Imperfection* points out both strong points and imperfections in the teaching The book should be of interest to specialists in Catholic Social Teaching but its main audience is curious newcomers especially people who do not want to be told that there are simple Catholic answers to the complicated problems of the modern world
