Bibliographies of modern authors by Henry Danielson **The Oxford Handbook of Deaf Studies, Language, and Education, Volume 1, Second Edition** Marc Marschark, Patricia Elizabeth Spencer, 2011-01-11 In this updated edition of the landmark original volume a range of international experts present a comprehensive overview of the field of deaf studies language and education Written for students practitioners and researchers The Oxford Handbook of Deaf Studies Language and Education Volume 1 is a uniquely ambitious work that has altered both the theoretical and applied landscapes *Lost in Translation* Martin Dockery, 2009-02-19 In September 1962 when Martin Dockery landed in Saigon he was a young determined idealistic U S Army first lieutenant convinced of America's imminent victory in Vietnam While most of the twelve thousand U S military advisors in country at the time filled support positions in Saigon and other major cities Dockery was one of a handful of advisors assigned to Army of the Republic of Vietnam ARVN combat units For eight months Dockery lived and fought in the heart of the Mekong Delta with an ARVN infantry battalion on missions and operations that often lasted several days And for most of that time whether tramping through the steaming leech infested jungle hiking across canals or engaging in sudden firefights Dockery was the only American soldier with the unit Dockery's solitary assignment with ARVN during the infancy of U S involvement in Southeast Asia afforded him an understanding of Vietnam far more profound than most other Americans *Lost in Translation* is his riveting account of the largely overlooked role of American combat advisors in the war As he vividly evokes the sounds smells and vistas of the country and its people Dockery depicts an army poorly trained incompetent and unwilling to fight for a government every bit as corrupt as that of the French colonial empire it replaced Yet even worse than his daily fare of isolation frustration and danger was Dockery's growing conviction that the advisory program was doomed Though these dedicated highly motivated advisors would do their best and persevere under the most trying circumstances they would not succeed The author's eyewitness testimony provides inescapable evidence that as early as 1962 the writing was already on the wall concerning the outcome of the Vietnam War Although it would take U S leaders more than a decade to divine what the young officer learned in a single year Dockery's personal and penetrating analysis of the war which he presented in a lecture at a Special Forces facility in Germany one week after his tour in Vietnam ended proved chillingly accurate Those who send soldiers to war should consider the realities and truths within these pages

The Oxford Handbook of Deaf Studies, Language, and Education, Volume 1 Marc Marschark, Patricia Elizabeth Spencer, 2010-12-14 The field of deaf studies language and education has grown dramatically over the past forty years From work on the linguistics of sign language and parent child interactions to analyses of school placement and the mapping of brain function in deaf individuals research across a range of disciplines has greatly expanded not just our knowledge of deafness and the deaf but also the very origins of language social interaction and thinking In this updated edition of the landmark original volume a range of international experts present a comprehensive overview of the field of deaf studies language and education Written for students practitioners and researchers The Oxford Handbook of Deaf Studies Language and Education Volume 1 is a uniquely ambitious work that has altered both the theoretical and applied landscapes Pairing practical information with detailed analyses of what works why and for whom all while banishing the paternalism that once dogged the field this first of two volumes features specially commissioned updated essays on topics including language and language development hearing and speech perception education literacy cognition and the complex cultural social and psychological issues associated with deaf and hard of hearing individuals The range of these topics shows the current state of research and identifies the opportunities and challenges that lie ahead Combining historical background research and strategies for teaching and service provision the two volume Oxford Handbook of Deaf Studies Language and Education stands as the benchmark reference work in the field of deaf studies
