Contagious Imagination Jane Tolmie, 2022-07-27 Contributions by Frederick Luis Aldama Melissa Burgess Susan Kirtley Rachel Luria Ursula Murray Husted Mark O Connor Allan Pero Davida Pines Tara Prescott Johnson Jane Tolmie Rachel Trousdale Elaine Claire Villacorta and Glenn Willmott Lynda Barry b 1956 is best known for her distinctive style and unique voice first popularized in her underground weekly comic *Ernie Pook's Comeek* Since then she has published prolifically including numerous comics illustrated novels and nonfiction books exploring the creative process Barry's work is genre and form bending often using collage to create what she calls word with drawing vignettes Her art imaginative and self reflective allows her to discuss gender race relationships memory and her personal everyday lived experience It is through this experience that Barry examines the creative process and offers to readers ways to record and examine their own lives The essays in *Contagious Imagination: The Work and Art of Lynda Barry* edited by Jane Tolmie study the pedagogy of Barry's work and its application academically and practically Examining Barry's career and work from the point of view of research creation *Contagious Imagination* applies Barry's unique mixture of teaching art learning and creativity to the very form of the volume exploring Barry's imaginative praxis and offering readers their own With a foreword by Frederick Luis Aldama and an afterword by

Glenn Willmott this volume explores the impact of Barry's work in and out of the classroom Divided into four sections Teaching and Learning which focuses on critical pedagogy Comics and Autobiography which targets various practices of remembering Cruddy a self explanatory category that offers two extraordinary critical interventions into Barry criticism around a challenging text and Research Creation which offers two creative synthetic artistic pieces that embody and enact Barry's own mixed academic and creative investments this book offers numerous inroads into Barry's idiosyncratic imagination and what it can teach us about ourselves Multicultural Comics Frederick Luis Aldama,2010-09-15

Multicultural Comics From Zap to Blue Beetle is the first comprehensive look at comic books by and about race and ethnicity The thirteen essays tease out for the general reader the nuances of how such multicultural comics skillfully combine visual and verbal elements to tell richly compelling stories that gravitate around issues of race ethnicity gender and sexuality within and outside the U S comic book industry Among the explorations of mainstream and independent comic books are discussions of the work of Adrian Tomine Grant Morrison and Jessica Abel as well as Marv Wolfman and Gene Colan's The Tomb of Dracula Native American Anishinaabe related comics mixed media forms such as Kerry James Marshall's comic book community performance DJ Spooky's visual remix of classic film the role of comics in India and race in the early Underground Comix movement The collection includes a one stop shop for multicultural comic book resources such as archives websites and scholarly books Each of the essays shows in a systematic clear and precise way how multicultural comic books work in and of themselves and also how they are interconnected with a worldwide tradition of comic book storytelling To See the Wizard Laurie Ousley,2021-02-19

To See the Wizard Politics and the Literature of Childhood takes its central premise as the title indicates from L Frank Baum's The Wonderful Wizard of Oz Upon their return to The Emerald City after killing the Wicked Witch of the West the task the Wizard assigned them Dorothy the Tin Woodman Scarecrow and Lion learn that the wizard is a humbug merely a man from Nebraska manipulating them and the citizens of both the Emerald City and of Oz from behind a screen Yet they all continue to believe in the powers they know he does not have still insisting he grant their wishes The image of the man behind the screen and the reader's continued pursuit of the Wizard is a powerful one that has at its core an issue central to the study of children's literature the relationship between the adult writer and the child reader As Jack Zipes Perry Nodelman Daniel Hade Jacqueline Rose and many others point out before the literature for children and young adults actually reaches these intended readers it has been mediated by many and diverse cultural social political psychological and economic forces These forces occasionally work purposefully in an attempt to consciously socialize or empower training the reader into a particular identity or way of viewing the world by one who considers him or herself an advocate for children Obviously these wizards acting in literature can be the writers themselves but they can also be the publishers corporations school boards teachers librarians literary critics and parents and these advocates can be conservative progressive or any gradation in between It is the purpose of this volume to interrogate the politics and the

political powers at work in literature for children and young adults Childhood is an important site of political debate and children often the victims or beneficiaries of adult uses of power one would be hard pressed to find a category of literature more contested than that written for children and adolescents Peter Hunt writes in his introduction to *Understanding Children's Literature* that children's books are overtly important educationally and commercially with consequences across the culture from language to politics most adults and almost certainly the vast majority in positions of power and influence read children's books as children and it is inconceivable that the ideologies permeating those books had no influence on their development If there were a question about the central position literature for children and young adults has in political contests one needs to look no further than the myriad struggles surrounding censorship Mark I West observes for instance Throughout the history of children's literature the people who have tried to censor children's books for all their ideological differences share a rather romantic view about the power of books They believe or at least they profess to believe that books are such a major influence in the formation of children's values and attitudes that adults need to monitor every word that children read Because childhood and young adulthood are the sites of political debate for issues ranging from civil rights and racism to the construction and definition of the family indoctrinating children into or subverting national and religious ideologies the literature of childhood bears consciously political analysis asking how socialization works how children and young adults learn of social cultural and political expectations as well as how literature can propose means of fighting those structures To *See the Wizard Politics and the Literature of Childhood* intends to offer analysis of the political content and context of literature written for and about children and young adults The essays included in *To See the Wizard* analyze nineteenth and twentieth century literature from America Britain Australia the Caribbean and Sri Lanka that is for and about children and adolescents The essays address issues of racial and national identity and representation poverty and class mobility gender sexuality and power and the uses of literature in the healing of trauma and the construction of an authentic self
