Community Engagement in Higher Education Manju Singh, Purva Bhatt, Wafa Singh, Kumar Sambhav Pareek, 2023-06-19

This book explores the finer nuances of community engagement in Indian higher education ranging from theory to practice. It contextualizes the concept and practice of community engagement in the contemporary context capturing global experiences, insights, and varied standpoints. The volume also identifies gaps present in the system and recommends solutions for the successful implementation and scaling up of the practice of community engagement not only in India but also at the global level. It also brings to the forefront opinions, perspectives, and experiences of stellar women and their valuable scholarship with the aim of addressing the gender gap in the field of knowledge production on community engagement. The book will be of interest to scholars, teachers, and researchers of education, higher education, and sociology of education. It will also be useful for academicians, think tanks, higher education administration, policymakers, civil society organizations, higher education institutions, and those interested in the study of community engagement.

Blended learning environments to foster self-directed learning Christo van der Westhuizen, Mncedisi C. Maphalala, Roxanne Bailey, 2023-03-31. This book on blended learning environments to foster self-directed learning highlights the focus on research conducted in several teaching and learning contexts where blended learning had been implemented and focused on the fostering of self-directed learning. Several authors have contributed to the book, and each chapter provides a unique perspective on blended learning and self-directed learning research. From each chapter, it becomes evident that coherence on the topics mentioned is established. One of the main aspects drawn in this book and addressed by several authors in the book is the use of the Community of Inquiry (CoI) framework when implementing teaching and learning strategies in blended learning environments to foster self-directed learning. This notion of focusing on the CoI framework is particularly evident in both theoretical and empirical dissemination presented in this book. What makes this book unique is the fact that researchers and peers in varied fields would benefit from the findings presented by each chapter, albeit theoretical, methodological, or empirical in nature. This in turn provides opportunities for future research endeavours to further the narrative of how blended learning environments can be used to foster self-directed learning.
