Claim:
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

The Breeder's Gazette, 1911 *Understanding Caricature* Greg Houston, 2021-04-27 A truly comprehensive and laser focused examination of a really wonderful expressive art form *Understanding Caricature* offers artists aspiring artists students journalists bloggers etc a lively guide to an old and respected art form A great caricature is one that not only captures the subject's look and personality but amplifies them significantly They are almost always funny and very often but not always mean spirited Eyes ears nose mouth hairline cheeks eyebrows teeth chin There's no facial feature or any other body part for that matter that can escape the sardonic scrutiny of caricaturist and illustrator Greg Houston But though he cleverly twists exaggerates and distorts each subject's image he always makes sure the person remains recognizable an absolute must for successful caricature Whether on assignment or simply drawing for his own perverse pleasure Houston loves skewering the high and mighty movie stars moguls politicians and assorted other VIPs especially when they misbehave Caricature says Houston is a very sharp weapon for the powerless to use against the powerful and he can teach you to wield it too After defining caricature differentiating it from other forms of portraiture and delving into its centuries long history Houston gets down to the nitty gritty of how to do it He focuses sequentially on the face the hair the body and what he calls accoutrements distinctive items of clothing that help viewers immediately identify celebrities You yourself will learn to poke artistic fun at the famous through a series of demonstrations that let you follow Houston as he constructs caricatures of Jake Gyllenhaal Masi Williams Dwayne Johnson Rainn Wilson and other notable victims of his wicked pen But Houston doesn't focus solely on his own approach A whole chapter of *Understanding Caricature* is devoted to other contemporary caricaturists and the signature mediums they work in ranging from traditional oils and watercolors to digital drawing and painting to sculpture and even puppet making And the book's final chapter displays the work of students who've studied with Houston at his Baltimore academy Brilliant in their own right these pieces also demonstrate how any artist with Houston's guidance can become a skilled practitioner of the caricaturist's art

Understanding Lord of the Flies Kirstin Olsen, 2000-05-30 A seemingly simple tale of schoolboys marooned on an island *Lord of the Flies* has proven to be one of the most enigmatic and provocative pieces of literature ever published This casebook probes the many layers of meaning in the novel examining its literary philosophical historical scientific and

religious significance Beginning with a literary analysis that explores the universality of the novel's characters the story is considered as subversion of the adventure tale comparing it to such classics as *Treasure Island* and *Robinson Crusoe* From these literary depictions of savagery this study delves deeper confronting the long running philosophical and biological debates about human nature that have absorbed such influential thinkers as Rousseau and Darwin The full meaning of *Lord of the Flies* is further contextualized by tracing historical views on civilization from the Victorian perspective to the very real horrors of World War II This casebook integrates analysis and primary documents with excerpts from materials as diverse as the Bible the writings of Darwin and war crimes interviews to explore the very nature of human aggression and evil This book will spark students to consider intriguing connections between Golding's masterpiece and broader concepts of civilization altruism political leadership responsibilities and the history of western imperialism The interdisciplinary approach of this casebook helps students situate the lessons of *Lord of the Flies* in the context of Education War and Postwar the Adventure Story Religion and Biology and Evolution The six topic sections integrate original illustrations and photos literary excerpts and primary documents and historic writings that help contextualize the work Thought provoking ideas for class discussions and research topics with carefully chosen further reading suggestions enhance this volume as a teaching tool **The Globe**

Contraband Guides Paul H. D. Kaplan, 2020-07-09 In his best selling travel memoir *The Innocents Abroad* Mark Twain punningly refers to the black man who introduces him to Venetian Renaissance painting as a contraband guide a term coined to describe fugitive slaves who assisted Union armies during the Civil War By means of this and similar case studies Paul H D Kaplan documents the ways in which American cultural encounters with Europe and its venerable artistic traditions influenced nineteenth century concepts of race in the United States Americans of the Civil War era were struck by the presence of people of color in European art and society and American artists and authors both black and white adapted and transformed European visual material to respond to the particular struggles over the identity of African Americans Taking up the work of both well and lesser known artists and writers such as the travel writings of Mark Twain and William Dean Howells the paintings of German American Emanuel Leutze the epistolary exchange between John Ruskin and Charles Eliot Norton newspaper essays written by Frederick Douglass and William J Wilson and the sculpture of freed slave Eugene Warburg Kaplan lays bare how racial attitudes expressed in mid nineteenth century American art were deeply inflected by European traditions By highlighting the contributions people of black African descent made to the fine arts in the United States during this period along with the ways in which they were represented *Contraband Guides* provides a fresh

perspective on the theme of race in Civil War era American art It will appeal to art historians to specialists in African American studies and American studies and to general readers interested in American art and African American history
