Nous Citoyens Deurope:

Nous, citoyens d'Europe Etienne Balibar, 2001 Faisant suite au volume paru en 1992 *Les Frontières de la démocratie* ce recueil d'essais poursuit la tentative de penser autrement dans la conjoncture et même dans l'avènement des problèmes fondamentaux citoyens et nationalité politique des droits de l'homme civils dont les termes mêmes ont été bouleversés par l'effondrement des cadres politiques du XX^{me} siècle mais il resserre les interrogations autour d'un enjeu principal d'ordinaire incontournable l'avenir incertain de la construction européenne La formation de cet espace politique nouveau sans précédent historique véritable est en effet l'occasion d'une renaissance de la figure du citoyen par delà le déclin des institutions qui l'ont porté et qu'elle a contribué à légitimer la cité l'empire l'Etat nation et l'Etat national social Etienne Balibar examine ainsi trois grandes questions dont chacune exige un effort de pensée spécifique celle des frontières de l'Europe en tant qu'espace politique qui commande toute réflexion sur l'identité collective et les identités communautaires et que surd' termine de plus en plus la nouvelle économie de la violence mondiale celle de l'Etat plebe de concentration du pouvoir et d'attribution de la souveraineté mais aussi appareil administratif où s'affrontent les logiques du service public et du contrôle des populations celle du peuple enfin dont il est urgent de faire quelque chose selon le mot d'ordre de 1789 en combinant l'échelle transnationale la lutte contre l'exclusion notamment celle des immigrés la conquête des pouvoirs ou des contre-pouvoirs et l'apprentissage de leur exercice Ce sont ces questions qui donnent un contenu à la notion d'une constitution européenne qui devra être arrachée au formalisme juridique et moral et replacée sur le terrain politique Nouveau nom du politique nouvel enjeu de ses conflits fondamentaux l'Europe sera plus démocratique que l'Etat nation ou elle ne sera pas

Citizenship and Identity John Schwarzmantel, 2003-08-29 *Citizenship and Identity* offers an analysis of contemporary politics and of the scepticism and apathy which characterise the political life of modern democracies Starting from exploration of liberal democracy and a critique of the fragmentation of contemporary politics this book develops a republican perspective as an alternative framework for political institutions and civic participation

Discipline and Practice Stefan Herbrechter, Ivan Callus, 2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What futures could theory have if there is disagreement about its presents and its pasts and what and how should it from now proceed to read

Illiberal Liberal States Elspeth Guild, Kees Groenendijk, 2016-05-13 Understanding the dynamics of the illiberal practices of liberal states is increasingly important in Europe today This book examines the changing relationship between immigration citizenship and integration at the European and national arenas It studies some of the main effects and questions the comprehensiveness of the exchange and coordination of public responses to the inclusion of third country nationals in Europe as well as their compatibility with a common European immigration policy driven by a rights based approach and the respect of the principles of fair and equal treatment of third country nationals The volume reviews key

national experiences of immigration and citizenship laws the use of integration and the moving of ideas between national arenas The framing of integration in immigration and citizenship law and the ways in which policy convergence is being achieved through the EU framework on integration raises a number of conceptual dilemmas and a set of definitional premises in need of reflection and consideration

Interpreting the Republic Vinay Swamy, 2012-12-01 Interpreting the Republic focuses on contemporary French literary and cinematic works 1986 2003 to reflect on what it means to belong to a nation such as France Vinay Swamy demonstrates how supposedly unshakable principles based on French republican ideals can be and often are re interpreted in novel ways by the works analyzed in this study which carve out niches for their protagonists that are otherwise foreclosed in the French national space

Geopolitics of European Union Enlargement Warwick Armstrong, James Anderson, 2007-04-24 Offers an integral picture of the EU's internal and external borders to reveal the processes of re bordering and social change currently taking place exploring issues such as security immigration economic development and changing social and political attitudes

Partitions Stefano Bianchini, Sanjay Chaturvedi, Rada Ivekovic, Ranabir Samaddar, 2004-08-02 The partition of the Indian subcontinent the collapse of the Soviet Union and Yugoslavia the reunification of Germany the continuing feud between two Koreas the Irish peace process the case of Israel Palestine and the lingering division of Cyprus have together given rise to a huge body of literature However studies of partitions have usually focused on individual cases This innovative volume uses comparative analysis to fill the gap in partition studies and examines cross cutting issues such as violence state formation union and regional unification geopolitics transition

National Identities in France Brian Sudlow, 2017-09-08 National Identities in France explores nationalism national identities and the various ways in which these concepts are accepted adapted discarded or internally disputed across ideological divides The popular assumption that automatically regards nationalism as a largely right wing concern occludes the many ways in which nationalism and national identities have contributed to social imagination and political or literary discourses across the right left spectrum The critical grounds on which such reflections are undertaken are rich and varied The idea of invented traditions has long suggested how such a thing as the modern nation state could vest itself in the creatively assembled robes of a dim and distant past In plotting the ground on which nationalisms are located previous studies have shown among other things the uses and limitations of the distinction of ethnic and civic nationalism Studies on national development reveal the imitative process that brought about nation building in former colonies of the Western powers Each chapter asks important questions concerning nationalism and national identities in relation to France With nationalism apparently stable distinctions collapse under the pressure of French national identity The signs are that French national identities and nationalisms are in a constant state of reinvention and negotiation of periodic crisis and constant rebirth If political classes attempt to manipulate national identity for some larger project they have no monopoly on the social imaginary National mobilization is a multiple and polysemic process not a univocal and rigid ideology

Postcolonial Italy

the analysis of national free movement debates contextualised in respective migration histories In addition to results related to political discourses the study unearths wider problems related to free movement including the diversified and variegated approaches towards different groups of movers as well as the exclusive attitudes apparent in both discourses and policies The History and Politics of Free Movement within the European Union is of interest to anyone studying national and European politics and ideologies contemporary history migration policies and political argumentation **German**
