Nous Citoyens Deurope:

Nous, citoyens d'Europe Etienne Balibar, 2001 Faisant suite au volume paru en 1992 *Les Frontières de la démocratie* ce recueil d'essais poursuit la tentative de penser autrement dans la conjoncture et même dans l'évènement des problèmes fondamentaux citoyens et nationalité politique des droits de l'homme civils dont les termes mêmes ont été bouleversés par l'effondrement des cadres politiques du XX^{me} siècle mais il resserre les interrogations autour d'un enjeu principal désormais incontournable l'avenir incertain de la construction européenne La formation de cet espace politique nouveau sans précédent historique véritable est en effet l'occasion d'une renaissance de la figure du citoyen par delà le déclin des institutions qui l'ont portée et qu'elle a contribué à légitimer la cité l'empire l'Etat nation et l'Etat national social Etienne Balibar examine ainsi trois grandes questions dont chacune exige un effort de pensée spécifique celle des frontières de l'Europe en tant qu'espace politique qui commande toute réflexion sur l'identité collective et les identités communautaires et que surd' termine de plus en plus la nouvelle économie de la violence mondiale celle de l'Etat plein de concentration du pouvoir et d'attribution de la souveraineté mais aussi appareil administratif où s'affrontent les logiques du service public et du contrôle des populations celle du peuple enfin dont il est urgent de faire quelque chose selon le mot d'ordre de 1789 en combinant l'échelle transnationale la lutte contre l'exclusion notamment celle des immigrés la conquête des pouvoirs ou des contre-pouvoirs et l'apprentissage de leur exercice Ce sont ces questions qui donnent un contenu à la notion d'une constitution européenne qui devra être arrachée au formalisme juridique et moral et replacée sur le terrain politique Nouveau nom du politique nouvel enjeu de ses conflits fondamentaux l'Europe sera plus démocratique que l'Etat nation ou elle ne sera pas

Citizenship and Identity John Schwarzmantel, 2003-08-29 *Citizenship and Identity* offers an analysis of contemporary politics and of the scepticism and apathy which characterise the political life of modern democracies Starting from exploration of liberal democracy and a critique of the fragmentation of contemporary politics this book develops a republican perspective as an alternative framework for political institutions and civic participation

Discipline and Practice Stefan Herbrechter, Ivan Callus, 2004 Has theory become resistible Has it betrayed its promise and sold out on its practice Should theory after having become a discipline still lay claims on the radical or should it embrace its establishment within the university What futures could theory have if there is disagreement about its presents and its pasts and what and how should it from now proceed to read

Illiberal Liberal States Elspeth Guild, Kees Groenendijk, 2016-05-13 Understanding the dynamics of the illiberal practices of liberal states is increasingly important in Europe today This book examines the changing relationship between immigration citizenship and integration at the European and national arenas It studies some of the main effects and questions the comprehensiveness of the exchange and coordination of public responses to the inclusion of third country nationals in Europe as well as their compatibility with a common European immigration policy driven by a rights based approach and the respect of the principles of fair and equal treatment of third country nationals The volume reviews key

national experiences of immigration and citizenship laws the use of integration and the moving of ideas between national arenas The framing of integration in immigration and citizenship law and the ways in which policy convergence is being achieved through the EU framework on integration raises a number of conceptual dilemmas and a set of definitional premises in need of reflection and consideration

Interpreting the Republic Vinay Swamy, 2012-12-01 Interpreting the Republic focuses on contemporary French literary and cinematic works 1986 2003 to reflect on what it means to belong to a nation such as France Vinay Swamy demonstrates how supposedly unshakable principles based on French republican ideals can be and often are re interpreted in novel ways by the works analyzed in this study which carve out niches for their protagonists that are otherwise foreclosed in the French national space

Geopolitics of European Union Enlargement Warwick Armstrong, James Anderson, 2007-04-24 Offers an integral picture of the EU's internal and external borders to reveal the processes of re bordering and social change currently taking place exploring issues such as security immigration economic development and changing social and political attitudes

Partitions Stefano Bianchini, Sanjay Chaturvedi, Rada Ivekovic, Ranabir Samaddar, 2004-08-02 The partition of the Indian subcontinent the collapse of the Soviet Union and Yugoslavia the reunification of Germany the continuing feud between two Koreas the Irish peace process the case of Israel Palestine and the lingering division of Cyprus have together given rise to a huge body of literature However studies of partitions have usually focused on individual cases This innovative volume uses comparative analysis to fill the gap in partition studies and examines cross cutting issues such as violence state formation union and regional unification geopolitics transition

National Identities in France Brian Sudlow, 2017-09-08 National Identities in France explores nationalism national identities and the various ways in which these concepts are accepted adapted discarded or internally disputed across ideological divides The popular assumption that automatically regards nationalism as a largely right wing concern occludes the many ways in which nationalism and national identities have contributed to social imagination and political or literary discourses across the right left spectrum The critical grounds on which such reflections are undertaken are rich and varied The idea of invented traditions has long suggested how such a thing as the modern nation state could vest itself in the creatively assembled robes of a dim and distant past In plotting the ground on which nationalisms are located previous studies have shown among other things the uses and limitations of the distinction of ethnic and civic nationalism Studies on national development reveal the imitative process that brought about nation building in former colonies of the Western powers Each chapter asks important questions concerning nationalism and national identities in relation to France With nationalism apparently stable distinctions collapse under the pressure of French national identity The signs are that French national identities and nationalisms are in a constant state of reinvention and negotiation of periodic crisis and constant rebirth If political classes attempt to manipulate national identity for some larger project they have no monopoly on the social imaginary National mobilization is a multiple and polysemic process not a univocal and rigid ideology

Postcolonial Italy

Cristina Lombardi-Diop, 2012-12-06 This volume constitutes a multidisciplinary intervention into the emerging field of postcolonial studies in Italy bringing together cultural and social history critical and political theory literary and cinematic analyses ethnomusicology and cultural studies anthropological fieldwork and race gender diaspora and urban studies *The Cambridge History of Modern European Thought: Volume 2, The Twentieth Century*, A Critical Theory for the Anthropocene Nathanaël Wallenhorst, 2023-09-15 This volume which is rooted in biogeophysical studies addresses conceptions of political action in the Anthropocene and the tension between a desire to accomplish the Promethean project of modernity and a post Promethean approach This work explores the idea of an anthropological mutation of political consolidation from a post Promethean togetherness to creating the capacity to act together The political thinking of the human condition developed by Hannah Arendt is important here as a resource for thinking about humanity in terms of human adventure This has three dimensions hubris the world and coexistence referring respectively to the logic of profit of the homo oeconomicus the logic of responsibility of the homo collectivus and the logic of the hospitality of the homo religatus The intellectual and political attitude outlined in this book is an extension of critical theory the work also puts forward a critique of what poses a problem in our relationship to the world and suggests how to overcome it the ultimate goal being social transformation The author propose an uprising and an anthropological consolidation of politics based on the revitalization that is brought about by the sharing of a conviviality both between humans and with what is non human The identification of conviviality as an educational paradigm to survive the Anthropocene gives us the much needed reason for hope despite this heritage of the Anthropocene In addition to Arendtian thinking this critical theory for the Anthropocene draws on the political thinking of several contemporary authors including Maurice Bellet Hartmut Rosa Andreas Weber Dominique Bourq and Christian Arnsperger This volume is of interest to researchers in the Anthropocene **Advances in the Visual Analysis of Social Movements** Nicole Doerr, Alice Mattoni, Simon Teune, 2013-03-14 This special issue is a key text in the current study of social movements It introduces new analytical concepts for understanding visuals in social movements and examines case studies from across the globe such as analysis of the symbols used in the Egyptian uprising and contested images from anti surveillance protests in Europe *Labor in Culture, Or, Worker of the World(s)* Peter Hitchcock, 2017-03-29 This book is a cultural critique of labor and globalization that considers whether one can represent the other The cultural representation of labor is a challenge in how globalization is understood Workers may be everywhere in the world but cultural correlatives are problematic By elaborating cultural theory and practice this book examines why this might be so If globalization unites workers via production and capital flows it often writes over traditional or progressive forms of unity Worlds of work have expanded in the last half century yet labor has receded within cultural discourse By considering critical and historical concepts in the workers inquiry the subject and value and provocative projects in cultural representation itself this study expands our lexicon of labor to understand more fully what workers of the world means under

globalization As such the book offers broad appeal to students and teachers of Global and Cultural Studies and will interest all those who take seriously how the worker is articulated at a global scale *The Fleeing People of South Asia* Sibaji Pratim Basu,2009-02-01 This definitive collection of essays from Refugee Watch is a comprehensive study of human displacement covering many regions addressing differing causes of refugee crises and providing analysis on guiding principles human rights and women s rights Refugee Watch in its decade long 30 volume journey has sought to capture the agony tension and struggle of the refugees and internally displaced in South Asia in its different dimensions The present Selections are a sincere attempt to grasp the multi dimensionality of the journal within two covers *Ethics and Politics* Peter Kemp,Noriko Hashimoto,2015 The main theme of volume 4 of Eco ethica is Ethics and Politics In the first and second part the authors examine the sometimes conflictual relationship between ethics and politics from an eco ethical perspective They investigate how our conceptions of both ethics and politics have been shaped historically as well as by today s technological conjuncture The third part continues the discussion of French philosopher Paul Ricoeur 1913 2005 begun in volume 3 The essays here focus on how his conception of the connections and differences between ethics and politics led him to embrace certain paradoxes in politics and forced him to become suspicious of apolitical thinking **State of the Art on the European Court of Justice and Enacting Citizenship** ,2009 **Towards a Systemic Theory of Irregular Migration** Gabriel Echeverría,2020-03-25 This open access book provides an alternative theoretical framework of irregular migration that allows to overcome many of the contradictions and theoretical impasses displayed by the majority of approaches in current literature The analytical framework allows moving from an interpretation biased by methodological nationalism to a more general systemic interpretation It explains irregular migration as a structural phenomenon or contemporary society and why state policies are greatly ineffective in their attempt to control irregular migration It also explains irregular migration as a diversified phenomenon that relates to the social characteristics of the context and why states accept irregular migrants By providing new comparative empirical qualitative material which allows to start filling an evident gap in the current research on irregular migration this book is of interest to graduate students scholars and policy makers *The History and Politics of Free Movement within the European Union* Saila Heinikoski,2020-11-26 The right to free movement is the one privilege that EU citizens value the most in the Union but one that has also created much political controversy in recent years as the debates preceding the 2016 Brexit referendum aptly illustrate This book examines how European politicians have justified and criticized free movement from the commencement of the first Commission of the EU 25 in November 2004 to the Brexit referendum in June 2016 The analysis takes into account the discourses of Heads of State Governments and Ministers of the Interior or Home Secretaries of six major European states the UK Germany France Italy Spain and Romania In addition to these national leaders the speeches of European Commissioners responsible for free movement matters are also considered The book introduces a new conceptual framework for analysing practical reasoning in political discourses and applies it in

the analysis of national free movement debates contextualised in respective migration histories In addition to results related to political discourses the study unearths wider problems related to free movement including the diversified and variegated approaches towards different groups of movers as well as the exclusive attitudes apparent in both discourses and policies The History and Politics of Free Movement within the European Union is of interest to anyone studying national and European politics and ideologies contemporary history migration policies and political argumentation **German**

Cosmopolitan Social Thought and the Idea of the West Austin Harrington, 2016-05-19 Harrington draws on neglected sources in early twentieth century German social thought to address core questions in current social science *EU*

Citizenship and Federalism Dimitry Kochenov, 2017-04-13 Kochenov's definitive collection examines the under utilised potential of EU citizenship proposing and defending its position as a systemic element of EU law endowed with foundational importance Leading experts in EU constitutional law scrutinise the internal dynamics in the triad of EU citizenship citizenship rights and the resulting vertical delimitation of powers in Europe analysing the far reaching constitutional implications Linking the constitutional question of federalism and citizenship the volume establishes an innovative new framework where these rights become agents and rationales of European integration and legal change located beyond the context of the internal market and free movement It maps the role of citizenship in this shifting landscape outlining key options for a Europe of the future
