## **November 2013 Maths Literacy Pgrade 10:**

*Assessing Academic Literacy in a Multilingual Society* Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience.

**Commonsense Methods for Children with Special Needs and Disabilities** Peter Westwood, 2020-11-25 This fully revised and updated eighth edition of Peter Westwood's book offers practical advice and strategies for meeting the challenge of inclusive teaching. Based on the latest international research from the field it offers practical advice on both new and well tried evidence based approaches and strategies for teaching students with a wide range of difficulties. As well as covering special educational needs, learning difficulties and disabilities in detail, chapters also explore topics such as self management and autonomy, managing behaviour and social skills. The book offers sound pedagogical practices and strategies for adapting curriculum content, designing teaching materials, differentiating instruction for mixed ability classes and implementing inclusive assessment of learning. Key features of this new edition include: Additional information on linking all aspects of teaching to a Response to Intervention Model. A focus on the increasing importance of digital technology in supporting the learning of students with special educational needs and disabilities. Up to date resource lists for each chapter for those who wish to pursue a particular topic in greater depth. Reflecting cutting edge international research and teaching practices, this is an invaluable resource for practising and trainee teachers, teaching assistants and other educational professionals looking to support students with special educational needs and disabilities.

**Parliamentary Debates (Hansard).** Great Britain. Parliament. House of Commons, 2013. *Teaching Mathematics Creatively* Linda Pound, Trisha Lee, 2021-09-30 This revised and updated third edition offers a range of strategies, activities and ideas to bring mathematics to life in the primary classroom. Taking an innovative and playful approach to maths teaching, this book promotes creativity as a key element of practice and offers ideas to help your students develop knowledge, understanding and enjoyment of the subject. In the creative classroom, mathematics becomes a tool to build confidence, develop problem solving skills and motivate children. The fresh approaches explored in this book include a range of activities such as storytelling, music and construction, elevating maths learning beyond subject knowledge itself to enable students to see mathematics in a new way. Key chapters of this book explore Learning maths

outdoors make more noise make more mess or work on a larger scale Everyday maths making sense of the numbers patterns shapes and measures children see around them Music and maths the role of rhythm in learning and music and pattern in maths Stimulating accessible and underpinned by the latest research and theory this is essential reading for trainee and practising teachers who wish to embed creative approaches to maths teaching in their classroom The Linguistic Challenge of the Transition to Secondary School Alice Deignan,Duygu Candarli,Florence Oxley,2022-12-30 This book provides a unique analysis and description of the linguistic challenges faced by school students as they move from primary to secondary school a major transition which some students struggle with emotionally and academically The study draws on a bespoke corpus of 2 5 million words of written materials and transcribed classroom recordings provided by the project s partner schools combines quantitative and qualitative approaches to the corpus data to explore linguistic variation across school levels registers and subjects describes the procedures of corpus compilation and analysis of written and spoken academic language showing how modern corpus tools can be applied to this far reaching social and educational issue uncovers differences and similarities between the academic language that school children are exposed to at primary and secondary school contrasting this against the backdrop of the non academic language that they encounter outside school This book is important reading for advanced students and researchers in corpus linguistics applied linguistics and teacher education It carries implications for policymakers and schools looking to support students at this critical point in their schooling The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license *English and Its Teachers* Simon Gibbons,2017-04-21 *English and Its Teachers* offers a historical overview of the development of secondary English teaching in schools over the past 50 years Initially charting the rise of a new progressive approach in the 1960s the book then considers the implications for the subject and its teachers of three decades of central policy intervention Throughout document and interview data are combined to construct a narrative that details the fascinating and at times turbulent history The book is divided into two main parts The age of invention and The age of intervention The first of these sections details how innovative English teachers and academics helped to develop a new model The second section explores how successive governments have sought to shape English through policy A final part draws comparisons with the teaching of the subject in other major English speaking nations and considers what the future might hold *English and Its Teachers* is a valuable resource for those interested in the teaching of English in secondary schools from new entrants to the profession to experienced teachers and academics working in the sector *The Armed Forces Covenant in action?* Great Britain: Parliament: House of Commons: Defence Committee,2013-07-18 A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement Some 28 per cent of Army recruits were less than 18 years of age Further

information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country
