Nye The Political Life Of Aneurin Bevan:

NYE Nick Thomas-Symonds, 2014-12-18 Aneurin Nye Bevan was one of the pivotal Labour figures of the post war era As Minister for Health in Attlee's government his role in the foundation of the NHS the world's largest publically funded health service and the centre piece of the Opening Ceremony of the 2012 London Olympics changed the face of British society forever The son of a coal miner from South Wales Bevan was a life long champion of social justice and the rights of working people and became one of the leading proponents of Socialist thought in Britain He was also vehement in his dislike of the Conservative Party going so far as to oppose the wartime coalition between Attlee and Churchill Whilst he admired the Marxist critique of capitalism and felt that the drive for private consumer affluence in the 1950s flew in the face of social good he was certainly no communist He was a passionate believer in public ownership but had a complex relationship with the unions which may have prevented him from becoming party leader In this book acclaimed author Nicklaus Thomas Symonds provides the first full life biography of Bevan in over two decades from his birth in Tredegar in the South Wales Valleys in 1897 to his death from stomach cancer at the age of 62 in 1960 Thomas Symonds considers not just Bevan's political career but also his upbringing his career in local government in Wales and his relationship with his wife and fellow Labour MP Jennie Lee Drawing on first hand interviews as well as recently released sources he provides a unique portrait of one of the great British statesmen of the twentieth century

Narratives of Delusion in the Political Practice of the Labour Left 1931-1945 Roger Spalding, 2018-04-18 This book sets out a challenging re interpretation of the politics of Labour's left wing It shows how the Left developed a range of simplistic self sustaining narratives rather than supported analyses to guide its actions in the aftermath of the political crisis of 1931 This approach it is argued persisted down to the opening years of the present century its employment in part explaining the decline of the pre Corbyn Left The narratives developed by the Left reflected a belief in the existence of a working class waiting to be led in a radical direction The leading figures of the Left often had limited direct contact with working people but within their narratives the responses of their target audience were predictable and automatic The Left created an idealised working class that behaved as the Left wished In addition the book questions the popular view often enhanced by biographers of many of these Labour Left leaders

Narratives of Injury Rosalyn Buckland, 2024-11-29 Narratives of Injury redescribes the history of injury from the perspective of those most at risk rather than medical professionals and other outsiders Refocusing on the first hand perspectives found in literary texts and journalistic accounts it uncovers a self conscious tradition of mining stories running through nineteenth century writing The book examines both non canonical authors and famous novelists including Charles Dickens Joseph Skipsey G A Henty E H Burnett George Eliot Edward Tireswell H G Wells and D H Lawrence Their narratives revise our understanding both of injury and of the radical potential of fiction Sudden physical injuries have often been configured as fundamentally unknowable by the victims themselves particularly in studies of nineteenth century literature

and culture Likewise narratives of psychological trauma have been largely understood in Cathy Caruth's words as the attempt to master what was never fully grasped in the first place Such readings privilege the reader as a necessary interpreter of physical or psychological injury By contrast *Narratives of Injury* reasserts the significance of patients' own experiences choices and actions *Taken as Red, Highs and Lows of the Labour Party, 1924-2019* Richard

Temple, 2024-07-03 This book comprises tales of the Labour Party in the hundred years since the first Labour government It includes many dramatic episodes not least the seething anger of the Glasgow rent strikes during the Great War the looming danger of Hitler in the 1930s and walkouts over equal pay in the 1960s The book conjures up lost worlds which have profoundly influenced modern Britain Above all this book describes the ways in which the Labour Party has impacted on the lives of ordinary people How does Labour measure up after a century of government and opposition The book is accessible and challenges established narratives It is also original No one else for example has written so specifically about the Labour Party and Nazi rearmament or about the Wilson government's response to the Beeching cuts The text draws on a wide variety of sources including the testimony of public figures such as John Betjeman Richard Hoggart Friedrich Engels and George Orwell Researched with scholarly rigour this book will appeal to a wide audience *Eviction* Jessica

Field, 2025-09-16 Grounded in personal experience *Eviction* uncovers a hidden history of housing injustice and working class resistance in what has become a perennial battleground for social conflict in modern Britain In 2017 Jessica Field's parents and more than a hundred of their neighbours received warning of imminent eviction Their corporate landlord intended to demolish their affordable privately rented homes to replace them with middle class houses for sale Led by the women of the estate tenants launched an anti eviction campaign to save their close knit community from destruction The neighbourhood was the last remnant of a 1950s National Coal Board estate constructed to house local miners When the coal industry declined in the 1970s whole estates were auctioned off to speculators Low income tenants were at the mercy of global investors Houses were left to rot Rents soared Tenants were exploited every step of the way Yet time and again tenant activists especially women fought back *Eviction* is a history of the British housing crisis in microcosm **The Oxford**

History of Britain Kenneth O. Morgan, 2021-02-25 A new edition of this best selling history of Britain from Roman times now updated to cover the first decade of the 21st century *The Oxford History of Britain* tells the story of Britain and its people over two thousand years from the coming of the Roman legions to the present day Encompassing political social economic and cultural developments throughout the British Isles the dramatic narrative is taken up in turn by ten leading historians who offer the fruits of the best modern scholarship to the general reader in an authoritative form A vivid sometimes surprising picture emerges of a continuous turmoil of change in every period and the wider social context of political and economic tension is made clear But consensus no less than conflict is a part of the story in focusing on elements of continuity down the centuries the authors bring out that special awareness of identity which has been such a distinctive

feature of British society By relating both these factors in the British experience and by exploring the many ways in which Britain has shaped and been shaped by contact with Europe and the wider world this landmark work brings the reader face to face with the past and the foundations of modern British society This updated new edition by the original editor adds great richness by taking the story down from the economic crisis of 2008 to the conflict over Europe at the present day The British Labour Party in Opposition and Power 1979-2019 Patrick Diamond,2021-01-18 This book provides a novel account of the Labour Party's years in opposition and power since 1979 examining how New Labour fought to reinvent post war social democracy reshaping its core political ideas It charts Labour's sporadic recovery from political disaster in the 1980s successfully making the arduous journey from opposition to power with the rise and ultimately fall of the governments of Tony Blair and Gordon Brown Forty years on from the 1979 debacle Labour has found itself on the edge of oblivion once again Defeated in 2010 it entered a further cycle of degeneration and decline Like social democratic parties across Europe Labour failed to identify a fresh ideological rationale in the aftermath of the great financial crisis Drawing on a wealth of sources including interviews and unpublished papers the book focuses on decisive points of transformational change in the party's development raising a perennial concern of present day debate namely whether Labour is a party capable of transforming the ideological weather shaping a new paradigm in British politics or whether it is a party that should be content to govern within parameters established by its Conservative opponents This text will be of interest to the general reader as well as scholars and students of British politics British political party history and the history of the British Labour Party since 1918 *The Cold War* Spencer C.
