The Assessment Bridge Pearl G. Solomon, 2002-06-14 Just the kind of bridge we need to span the ideological wars and make schools work for teachers and their students Ann Lieberman Senior Scholar Carnegie Foundation for the Advancement of Teaching Visiting Professor Stanford University In her supremely well written and useful book Dr Solomon has woven together historical perspective research and her own considerable experience to address reforming schools in the 21st Century After defining the problem productive change Dr Solomon has examined old solutions and conceptualized new ones to create better schools for students Nancy Goldman Director of Curriculum Pearl River School District Pearl River NY Standards and implementation of the learning process go hand in hand The Assessment Bridge makes us clearly aware of the present need for a bridge between the two so that standards may not create greater failure and the rejection of formal education by many children Matthew Foley Pastor Epiphany Roman Catholic Church We must ensure that tests serve the needs of education not force education to fulfill needs of test creators The Assessment Bridge is award winning educator Pearl Solomon's penetrating and cogent examination of today's high stakes standards based testing

movement which seems to compromise effective teaching and learning rather than improve it. Committed teachers know the importance of student assessment as a guide to classroom instruction. Restoring assessment to its proper place in the curriculum is the goal of this clear headed analysis. Chapters cover The origins and history of the current testing movement How good tests guide teaching and learning How to balance standardized tests curriculum standards and critical local variables such as class size socioeconomic and teacher attitudes How to build bridges from test anxiety to improved student learning teacher training curriculum and instruction and school administration and leadership How to recruit train and nurture a new generation of talented committed and effective teachers Emphasizing the positive at all times Solomon guides us toward creation of better schools where the best teachers and school leaders link tests to standards curriculum and improved student learning

NAEP 1992 Mathematics State Report for New York National Assessment of Educational Progress, Princeton, NJ., 1993 In 1990 the National Assessment of Educational Progress NAEP included a Trial State Assessment which for the first time in the NAEP's history made voluntary state by state assessments. This 1992 mathematics report marks the first attempt of the National Center for Education Statistics NCES to shift to standards based reporting of National Assessment statistics. NAEP results are reported by achievement levels which are descriptions of how students should perform relative to a body of content reflected in the NAEP frameworks in other words how much students should know. The 1992 assessment covered six mathematics content areas: 1 numbers and operations 2 measurement 3 geometry 4 data analysis statistics and probability 5 algebra and functions and 6 estimation. In the District of Columbia 2 399 fourth grade students in 107 public schools and 1 816 eighth grade students in 35 public schools were assessed. This report describes the mathematics performance of District of Columbia fourth and eighth grade students in public schools and compares their overall performance to students in the Northeast region of the United States and the nation. The distribution of the results are provided for subpopulations of students including race ethnicity type of community advantaged disadvantaged urban extreme rural and other parents education level gender and content area performance. To provide a context for understanding students mathematics proficiency students their mathematics teachers and principals completed questionnaires which focused on what are students taught curriculum coverage homework and instructional emphasis how is mathematics instruction delivered resources collaborating in small groups using mathematical objects and materials how are calculators and computers used access and use of calculators availability of computers and when to use a calculator who is teaching mathematics educational background and conditions beyond school that facilitate mathematics learning and teaching amount of reading materials in the home hours of television watched per day student absenteeism and students perceptions of mathematics. The average proficiency of fourth grade students in District of Columbia on the NAEP

mathematics scale was 191 compared to 217 nationwide for District of Columbia eighth grade students the average proficiency was 234 compared to 266 nationwide ASK
