Transforming

Theological Education Perry Shaw, 2014-05-14 For several decades concern has been expressed about the need for greater integration and contextual significance in the curricular design of theological education. In addition, there has been a growing awareness of the role theological schools should play in strengthening the missional vision and practice of local churches. Since 2008 the Arab Baptist Theological Seminary in Lebanon has been engaged in an ongoing experiment in the design and implementation of an integrated and contextually driven curriculum. Drawing on lessons learned from this experience and from the wider discourse currently taking place in higher education, *Transforming Theological Education* provides theoretical foundations and practical principles for purposeful curriculum design as well as tools for integrated and contextually significant learning in the classroom. Contemporary Global Perspectives on Cooperative Learning Robyn M.

Gillies, Barbara Millis, Neil Davidson, 2023-03-29 This volume captures contemporary global developments in cooperative learning (CL) across varied educational contexts, levels, and disciplines. Cooperative learning is widely recognized as a pedagogical practice that promotes socialization and learning among students from kindergarten to tertiary education and across different subject domains. With chapters from contributors throughout the Global North and South, this comprehensive volume offers a wide-ranging perspective and addresses a range of cooperative learning pedagogies, including relational, online, and peer learning, STAD, the Jigsaw model, and dialogic talk. The chapters draw on novel empirical research and theory to highlight best practices in cooperative learning whilst also considering the challenges, limitations, and factors which drive or inhibit learner engagement and success. Consistent attention is given to the pivotal role of the educator in implementing cooperative learning to maximum benefit, to enhance students' affective, social, cognitive, and metacognitive learning. Thus, this book will appeal to scholars and researchers across a variety of subjects and will provide an additional benefit to in-service and pre-service educators who already practice cooperative learning in their classrooms as well as those who are interested in implementing the model. **Handbook on Teaching and Learning in Political Science and International Relations**

John Ishiyama, William J. Miller, Eszter Simon, 2015-02-27 With a focus on providing concrete teaching strategies for scholars, the *Handbook on Teaching and Learning in Political Science and International Relations* blends both theory and practice in an accessible and clear manner. In an effort to help faculty, *Selected Academic Papers of Pan Maoyuan on Higher Education* Maoyuan PAN, 2015-11-24 Professor Pan Maoyuan is a distinguished educationist on higher education in China. This anthology includes Pan's representative essays at different times, which are independent from but have logical connections with one another. Some essays focus on elaborating the basic rules of education and its application and probing the key features of the teaching principle during the teaching process of higher education. Meanwhile, some essays are mainly about the practice of higher education, including a profound exploration of the serious theoretical and practical problems during different periods in China's higher education developments, so as to find out scientific and feasible ideas as well as measures to solve the problems. Readers would get a better understanding of higher education research in China and get

more acquainted with the country's higher education development over the past few decades Readers would also obtain valuable insight by comparing China with the development of higher education system in other countries

Formative Assessments and Teacher Professional Learning Dineke Tigelaar, Douwe Beijaard, 2017-10-02 How can formative assessment be used as a means to support teacher professional learning This book presents several studies from different countries on approaches to formative assessment of teachers both before they start working and during their careers These approaches draw on insights from studies into effective teacher professional development Together the chapters in this book provide an overview of the various ways in which formative assessment may be used to support teacher professional learning and shed light on choices that can be made in designing such assessments The studies illustrate how teachers may perceive formative assessment methods how their learning processes might unfold during formative assessment processes and which struggles they may have to deal with during the process The book furthermore addresses questions concerning the impact of formative assessments on teacher learning As such this volume provides theoretical as well as practical prospects as well as challenging ideas for how formative assessment may move further towards being an effective means for supporting teacher learning This book was originally published as a special issue of Teachers and Teaching Theory and Practice
