Gender in the Vampire Narrative Amanda Hobson, Melissa Anyiwo, 2016-09-26 Gender in the Vampire Narrative addresses issues of masculinity and femininity unpacking cultural norms of gender This collection demonstrates the way that representations of gender in the vampire narrative traverse a large scope of expectations and tropes The text offers classroom ready original essays that outline contemporary debates about sexual objectification and gender norms using the lens of the vampire in order to examine the ways those roles are undone and reinforced through popular culture through a specific emphasis on cultural fears and anxieties about gender roles The essays explore the presentations of gendered identities in a wide variety
