

Policy Paper Format¹

There is a great deal of confusion about the policy paper. Ideally, a policy paper is akin to a decision memorandum. It is separated from a theory-relevant research paper by its tense (present or future *vice* past) and the practicality of its “bottom line” (very *vice* remotely).

A policy paper must be thoroughly researched and – in an academic environment – be richly accompanied by endnotes. The scholarly requirements for attribution and documentation on a policy paper in a class setting are the same as for a research paper.

A good policy paper will have the following parts:

Introduction/Background

Keep it short and to the point. This section frames the issue.

Problem Statement

The problem statement may come at the end of the introduction. It concisely identifies the problem to be solved. It may be in the form of a question.

Objectives

Identify the objectives of the entity that is trying to solve the problem. Usually, the entity is a nation or an alliance, but it can also be a transnational actor. Focus on a single decision-maker or decision-making body. It is best to work from an official list in a government document or leadership statement. Consider the domestic political goals that may be associated with your policy recommendation. Defense issues can rarely be decided without considering domestic issues.

Options

Enumerate the options and describe them briefly. It is common to provide three options, but don't force it to that. For and against arguments do not constitute two options. Give the decision-maker some choices.

Analysis of Options

How does each option serve the objectives listed above, and what are the other cost issues associated with each. Consider positive and negative externalities. You should be sensitive to the options' domestic political repercussions.

Recommendation

Select the best option and recapitulate why it is the best. Do a reality check. Does the recommendation solve the problem; is it actionable? Your recommendation should ideally be a stand alone, and not require another iteration of the process to figure out how to implement it. A good recommendation is never a suicide pact.

Occasionally, the policy paper format is used more loosely than shown above. Indeed, a similar format can be used for information papers or literature reviews that center on differing perspectives or viewpoints. In such cases, the objective section may be attenuated and the recommendations become more reflections or observations.

American Education ,1983 Legislative Service Organizations United States. Congress. House. Committee on House Administration. Ad Hoc Subcommittee on Legislative Service Organizations, 1982 **Towards a Northeast Asian Security Community** Bernhard Seliger, Werner Pascha, 2011-06-25 The Northeast Asian security environment is closely linked to Korea's growth perspectives for the future The spectacular rise of the South Korean economy in the past half century also known as Miracle on the Han River has been duly highlighted as one of the most successful cases of economic development worldwide However among the factors curbing South Korea's growth perspectives has been from the very beginning of its

rise the coexistence of the difficult neighbour to the North Democratic People's Republic of Korea. While in the cold war this coexistence has been taken as inevitable, after the end of the cold war there were hopes to overcome this obstacle to further growth either through collapse or enhanced cooperation with the North, neither of which became reality. North Korea's unprecedented aggressiveness and development of long range ballistic missiles and nuclear devices made this threat truly an international question with multilateral talks coming into existence as ad hoc measures to cope with the nuclear crisis. It was then that the idea of a Northeast Asian Security Community was born. The contributions in this book discuss how a peaceful solution of the security problems could not only enhance stability of Korea's economy and reduce the defense burden considerably, the so called peace dividend, but would facilitate regional investments, safer and regional solutions for common economic problems. When discussing the possibilities of a security framework or in an institutionalized form, security community in Northeast Asia, the authors in this volume are realistic as to not fall into the trap of wishful thinking which so often has characterized approaches to North Korea resulting in disappointment. The past two years again saw the rising of tensions in Northeast Asia and the masterful way in which even an impoverished and isolated country can play its cards. While it seems a new ice age between the two Koreas is possible nevertheless and maybe even more than ever the search for a stable security framework for Northeast Asia as a precondition for peaceful economic cooperation and development will go on. The chapters in this volume contribute to the ongoing debate to secure peace and development in Northeast Asia making this book of interest to both academics and policy makers alike. *Resources in Education*, 2001
