New and comprehensive insights into the seminal events that shaped Belgian identity In 1790 between the birth of America 1776 and the creation of the French National Assembly 1789 nine provinces nestled between the French and Dutch borders declared themselves a new free and independent country the United States of Belgium Before then the provinces had been part of the vast Austrian Habsburg Empire ruled by Joseph II In 1789 revolutionaries from Brussels to Ghent to Namur recruited a grass roots army that to the surprise of many successfully chased imperial forces from the majority of the territories The exhilaration of military triumph and political independence quickly faded as revolutionary factions fought each other and the European monarchies became more nervous in the face of French radicalization Yet the course of events had fostered the solidification of a new identity among the provinces inhabitants Belgianness This is the story of the emergence of Belgianness in the crucible of revolution The United States of Belgium tells the story of the First Belgian Revolution before the creation of a language barrier between French and Dutch It incorporates over 50 contemporary images of the revolutionary era
