nomic globalization forces continue to labour under the notion that they are still fully autonomous and sovereign when shaping national economic policy And pretend as though their own national state were still the master in its own house that despite unbridled market economics could continue to dictate to the economy and companies how to live and in which rooms All that has become fiction The laws of globalization diminish the manoeuvring space for shaping national economic policy Even if many folks today don't want to hear it The issue is no longer achieving what is socially politically desirable for the own society but rather the optimal adaptation of society and social benefits to the politically practicable Journal of the National Cancer Institute ,2003 Autocar ,2003 **Decision Economics.
