The diagram illustrates a two-dimensional lattice structure. It consists of a grid of points. Arrows indicate interactions between nearest and next-nearest neighbors. The lattice is labeled with 'a' for the nearest neighbor distance and 'b' for the next-nearest neighbor distance.

d. Of what interest to investors is the changing relationship between dividend and capital gains yields over time?

- I. Some investors need cash dividends, while others would prefer growth. Also, investors must pay taxes each year on the dividends received during the year, while taxes on the capital gain can be delayed until the gain is actually realized.
- II. Some investors need cash dividends, while others would prefer growth. Also, investors must pay taxes each year on the capital gain during the year, while taxes on the dividends can be delayed until the stock is sold.
- III. It is of no interest to investors whether they receive dividend income or capital gains income, since both types of income are always taxed at the same rate.
- IV. It is of no interest to investors whether they receive dividend income or capital gains income, since taxes on both types of income must be paid in the current year.
- V. It is of no interest to investors whether they receive dividend income or capital gains income, since taxes on both types of income can be delayed until the stock is sold.
