Yasheng Huang, 2023-01-01 The long history of China's relationship between stability, diversity and prosperity and how its current leadership threatens this delicate balance Riveting Tunku Varadarajan Wall Street Journal A Foreign Affairs Best Book of 2023 Chinese society has been shaped by the interplay of the EAST exams, autocracy, stability and technology from ancient times through the present Beginning with the Sui dynasty's introduction of the civil service exam known as Keju in 587 CE and continuing through the personnel management system used by the Chinese Communist Party (CCP) Chinese autocracies have developed exceptional tools for homogenizing ideas, norms and practices But this uniformity came with a huge downside: stifled creativity Yasheng Huang shows how China transitioned from dynamism to extreme stagnation after the Keju was instituted China's most prosperous periods such as during the Tang dynasty (618-907) and under the reformist CCP occurred when its emphasis on scale, the size of bureaucracy was balanced with scope, diversity of ideas Considering China's remarkable success over the past half century Huang sees signs of danger in the political and economic reversals under Xi Jinping The CCP has again vaulted conformity above new ideas reverting to the Keju model that eventually led to technological decline It is a lesson from China's own history Huang argues that Chinese leaders would be wise to take seriously      **The ^AOxford Handbook of Japanese Politics** Robert J. Pekkanen, Saadia Pekkanen, 2021-10-11 Through more than 40 chapters by leading specialists the Oxford Handbook of Japanese Politics examines major aspects of both domestic politics and international relations In addition to providing a broad overview of contemporary Japanese politics the chapters are united by a shared question: what is the nature and quality of Japanese democracy Contributors consider this matter alongside their individual subjects which together comprehensively address the central research topics of the field  
Comparative Government and Politics John McCormick, Rod Hague, Martin Harrop, 2019-02-08 This revised and updated edition of a core textbook, one of the most well established texts in the field of comparative politics, offers a comprehensive introduction to the comparison of governments and political systems, helping students to understand not just the institutions and political cultures of their own countries but also those of a wide range of democracies and authoritarian regimes from around the world The book opens with an overview of key theories and methods for studying comparative politics and moves on to a study of major institutions and themes such as the state, constitutions and courts, elections, voters, interest groups and political economy In addition, two common threads run throughout the chapters in this edition: the reversal of democracy and declining trust in government, ensuring that the book fully accounts for the rapid developments in politics that have taken place across the world in recent times Written by a team of experienced textbook authors and featuring a range of engaging learning features, this book is an essential text for undergraduate and postgraduate courses on comparative politics, comparative government, introduction to politics and introduction to political science New to this Edition: New and extended coverage of important topics such as authoritarian states, identities, ethnicity and political violence A brand new chapter on

political economy An engaging new page design in full colour for the first time An enhanced companion website now providing an extensive testbank of questions for lecturers Publishing alongside John McCormick s new book on Cases in Comparative Government and Politics October 2019 which offers more detailed coverage of the cases covered in this text

**Globalization and Public Sector Reform in China** Kjeld Erik Brødsgaard,2014-04-24 This book analyses public sector reform comprehensively in all parts of China s public sector government bureaucracy public service units and state owned enterprises It argues that reform of the public sector has become an issue of great concern to the Chinese leaders who realize that efficient public administration is key to securing the regime s governing capacity and its future survival The book shows how thinking about public sector reform has shifted in recent decades from a quantitative emphasis on small government which involved the reduction in size of what was perceived as a bloated bureaucracy to an emphasis on the quality of governance which may result in an increase in public sector personnel The book shows how although Western ideas about public sector reform have had an impact Chinese government continues to be best characterized as state capitalism with the large state owned enterprises continuing to play an important and increasing role in the economy and in business However state owned enterprises no longer provide care for large numbers of people from the cradle to the grave finding an alternative efficient way of delivering basic welfare and health care is the big challenge facing China s public sector

**Fairness Issues in Educational Assessment** Hossein Karami,2018-02-02 Fairness and ethicality have been at the center of the debates on the appropriate use of educational tests since the 1960s Particularly in high stakes contexts it is clear that fairness should be a major concern to both the test developers and to those being tested given that the fairness of a test is so intertwined with its validity Fairness Issues in Educational Assessment aims to shed more light on the issue and bring to sight some of the ways in which test fairness can be addressed The contributions written by some of the most prominent figures in educational assessment address both theoretical and practical aspects of test fairness The wealth of ideas presented here will be valuable to novice researchers and help them appreciate both the joy and complexity of conducting fair educational measurement This book was originally published as a special issue of Educational Research and Evaluation
