Northern Ireland Marc Mulholland, 2020-03-26 From the Plantation of Ulster in the seventeenth century to the entry into peace talks in the late twentieth century the Northern Irish people have been engaged in conflict Catholic against Protestant Republican against Unionist The traumas of violence in the Northern Ireland Troubles

have cast a long shadow For many years this appeared to be an intractable conflict with no pathway out Mass mobilisations of people and dramatic political crises punctuated a seemingly endless succession of bloodshed When in the 1990s and early 21st century peace was painfully built it brought together unlikely rivals making Northern Ireland a model for conflict resolution internationally But disagreement about the future of the province remains and for the first time in decades one can now seriously speak of a democratic end to the Union between Northern Ireland and Great Britain as a foreseeable possibility The Northern Ireland problem remains a fundamental issue as the United Kingdom recasts its relationship with Europe and the world In this completely revised edition of his Very Short Introduction Marc Mulholland explores the pivotal moments in Northern Irish history the rise of republicanism in the 1800s Home Rule and the civil rights movement the growth of Sinn Fein and the provisional IRA and the DUP before bringing the story up to date drawing on newly available memoirs by paramilitary militants to offer previously unexplored perspectives as well as recent work on Northern Irish gender relations Mulholland also includes a new chapter on the state of affairs in 21st Century Northern Ireland considering the question of Irish unity in the light of both Brexit and the approaching anniversary of the 1921 partition and drawing new lessons for the future ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

The British State and the Northern Ireland Crisis, 1969-73 William Beattie Smith, 2011 Focusing on four case studies author William Beattie Smith traces the evolution of British policy from 1969 73 and depicts how easily a conflict over national identity can turn into bloodshed grief and horror and how difficult it is once a serious fight has started to restore peace In each of the case studies Smith highlights a discrete policy followed by the British government in tackling political disorder in Northern Ireland and examines why the policy was chosen or pursued He outlines three broad strategic options reform coercion and powersharing and identifies factors influencing which of the three will be selected in practice Focusing on policy outcomes rather than the details of the negotiating process the author evaluates the relative importance of rational calculation patterns of understanding party politics diplomatic pressures organizational structure and official doctrine in shaping policies and initiating radical changes While rooted in policy analysis the book ventures into the territory of political history and conflict studies The author addresses issues such as the legitimacy of state authority the vulnerability of democratic institutions to the opposition of disaffected minorities and the tensions that exist between public order and individual rights His conclusion

derives strategic lessons from the British experience in Northern Ireland and provides guidance for policymakers confronting challenges arising from comparable cases

Northern Ireland and the Divided World John McGarry, 2001-07-26 Written by a leading group of scholars in the field this unique volume examines post Agreement Northern Ireland It shatters the myth that Northern Ireland is a place apart its conflict the result of peculiarly local circumstances Northern Ireland is compared with other divided societies in four continents including the Aland Islands the Basque Country Canada Cyprus Corsica East Timor Israel Palestine Lebanon Puerto Rico South Africa South Tyrol and Sri Lanka The collection shows that comparative analysis is essential for understanding the dynamics of Northern Ireland's conflict and ethnic conflict in general It also shows the value of comparative analysis for conflict management The contributors offer a wealth of suggestions on how to consolidate or change the landmark Agreement that Northern Ireland's political parties reached in April 1998

Northern Ireland United States. Congress. House. Foreign Affairs, 1972

Peace and Ethnic Identity in Northern Ireland Henry Jarrett, 2017-10-16 Consociational power sharing is often perceived to be the method of conflict management that is most likely to succeed in deeply divided societies The case of Northern Ireland in particular is heralded by many as a consociational success story Since the signing of the Good Friday Belfast Agreement in 1998 significant conflict transformation has taken place in the form of a considerable reduction in levels of violence and the establishment of power sharing between unionists and nationalists This book looks at what consociational power sharing achieves after its implementation specifically whether it can work to overcome existing identities in divided societies or whether it simply freezes divisions It argues that if consociational power sharing is facilitating a move towards a genuinely shared society this would be demonstrated in the focus of the election campaigns of Northern Ireland's political parties which would be almost exclusively based around socio economic issues affecting the whole population rather than narrow single identity concerns However the book claims that on the whole this has not been realised Although election campaigns are today less strident than they were in the pre 1998 era it remains the case that they usually foreground single identity symbolism as it is this that resonates with voters Whilst consociational power sharing has been very successful in reducing levels of violent conflict and facilitating elite level cooperation between unionists and nationalists it has been much less successful in reducing divisions within wider society to facilitate a genuinely shared Northern Irish identity By establishing an important middle ground between consociational proponents and critics this research will be of significant interest to students and scholars of ethnic politics political sociology conflict management and divided societies more generally
