

Newton's 1<sup>st</sup> Law - the law of inertia

An object with no net force acting on it remains at rest or in uniform.

- Objects at rest tend to stay at rest.
- Objects in motion tend to move in a straight line at constant speed.

Inertia - A property of matter which resists changes in motion.

The best measure of an object's inertia is its mass.

Force - A push or pull.

Net forces cause the motion of an object to change.

Examples of Newton's 1<sup>st</sup> Law in Action:

When you're in a car brake  
when you're turning in a car.

In the egg demonstration:

Why does the tray fly across the table? Force was applied toward the tray

Why do the cardboard cylinders go with it? The friction force

Why do the eggs drop straight down into the water? is acting like a glue.  
The eggs drop straight down because of gravity.

Physics Challenge: Why doesn't a car in motion on a flat road stay in motion?

Friction forces, and air resistance.

Examples of Accelerated Motion:

Speeding up : slowing down : Starting :  
Changing direction : Stopping : moving in a circle

Inertia resists acceleration.

A net force causes acceleration.

Newton's 2<sup>nd</sup> Law - the law of acceleration

When a net force is applied to an object the object will accelerate in the direction of that force.

**Hollywood or History?** Sarah J. Kaka, 2022-01-01 The rationale for the present text *Hollywood or History An Inquiry Based Strategy for Using Film to Teach About Inequality and Inequity Throughout History* stems from two main things First and foremost is the fact that the reviews of the first two volumes in the *Hollywood or History* series have been overwhelmingly positive especially as it pertains to the application of the strategy for practitioners Classroom utility and teacher practice have continued to be the primary objectives in developing the *Hollywood or History* strategy The second thing is that this most recent volume in the series takes it in a new direction rather than focusing on eras in history it focuses on the themes of inequity and inequality throughout history and how teachers can utilize the *Hollywood or History* strategy to tackle some of the more complicated content throughout history that many teachers tend to shy away from There is a firm belief that students connection to film along with teachers ability to use film in an effective manner will help alleviate some of the challenges of teaching challenging topics such as inequity and inequality in terms of gender race socioeconomic status and so much more The book provides 30 secondary lesson plans grades 6 12 that address nine different topics centered around inequity and inequality throughout history many of which connect students to the world we are living in today The intended audience for the book are teachers who teach social studies at the 6th 12th grade level both in the United States and other countries An additional audience will be college and university social studies history methods professors in the United States and worldwide
