

Everything From Nothing

Paragraph 1

We as human are always mesmerized, from where we have come , who have created this universe , why everything we see exist & what is the future & why we cannot see the future ? Why earth revolve around the sun & why moon revolve around the earth & why sun is so hot & why solar system exist? Why there are countless plants & why animals exist on earth? Why day & night happen?

Paragraph 2

Why Light comes from sun & why we can see it in light form only? Why a human takes birth & why humans, animals & plants die? What is time & how it exists? Why there are different type of foods, liquids, elements exist. We can continue this list & we can keep on adding questions, which each one of us are trying to know from past hundreds- thousands of years. Many explanations by scientists & philosophers has been given from past thousands of years to all our above questions & yet , till today , no explanation has satisfies us.

Paragraph 3

Today we will try to explain it to you. Let us begin with famous scientist & remember what he said in his famous equation , $E=MC^2$. He said only 'Mass converts in to energy & then energy converts in to mass!'. Means he simply said , nothing is ever destroyed & nothing is ever created. What a beautiful & absolutely correct line , 'Nothing is ever destroyed & nothing is ever created'. This line solve half the problem, means the problem of 'the things mention in paragraph 1 & paragraph 2'. Means we need to just simply forget that, 'Life or death of something', because as per Einstein , it is just conversion of one form to another & 'nothing is really taking Birth or dying as such' or 'Nothing is ever created or destroyed"

Paragraph

If we agree, nothing is really taking birth or dying ', then next puzzle is 'Why all those things exist around us including ' -'what we see, smell , touch , hear , taste' in everyday life , from an apple to moon itself ? Ok let us explain it with very basic example. Why moon exist , because by eyes we can see that. Also scientist claim , they have been to moon & they touched it by leg & hands. So we are sure moon exist, because , we can see that in sky & someone has touched also. Ok now our example come in picture , suppose a man live in 1 room & in room there is light bulb , there are oranges in a plate. There is nice sofa to lie down. There is TV playing good music. A man is relaxing in room , enjoying TV , listening music , eating orange & smelling good fragrance . Suppose in hypothetical situation this our
