The New Urban Crisis Richard Florida, 2017-04-11 In recent years the young educated and affluent have surged back into cities reversing decades of suburban flight and urban decline And yet all is not well Richard Florida argues in *The New Urban Crisis* Florida one of the first scholars to anticipate this back to the city movement in his groundbreaking *The Rise of the Creative Class* demonstrates how the same forces that power the growth of the world's superstar cities also generate their vexing challenges gentrification unaffordability segregation and inequality Meanwhile many more cities still stagnate and middle class neighborhoods everywhere are disappearing Our winner take all cities are just one manifestation of a profound crisis in today's urbanized knowledge economy A bracingly original work of research and analysis *The New Urban Crisis* offers a compelling diagnosis of our economic ills and a bold prescription for more inclusive cities capable of ensuring growth and prosperity for all

Incomplete Streets Stephen Zavestoski, Julian Agyeman, 2014-08-27 The Complete Streets concept and movement in urban planning and policy has been hailed by many as a revolution that aims to challenge the auto normative paradigm by reversing the broader effects of an urban form shaped by the logic of keeping automobiles moving By enabling safe access for all users Complete Streets promise to make cities more walkable and livable and at the same time more sustainable This book problematizes the Complete Streets concept by suggesting that streets should not be thought of as merely physical spaces but as symbolic and social spaces When important social and symbolic narratives are missing from the discourse and practice of Complete Streets what actually results are incomplete streets The volume questions whether the ways in which complete streets narratives policies plans and efforts are envisioned and implemented might be systematically reproducing many of the urban spatial and social inequalities and injustices that have characterized cities for the last century or more From critiques of a mobility bias rooted in the neoliberal foundations of the Complete Streets concept to concerns about resulting environmental gentrification the chapters in *Incomplete Streets* variously call for planning processes that give voice to the historically marginalized and more broadly that approach streets as dynamic fluid and public social places This interdisciplinary book is aimed at students researchers and professionals in the fields of urban geography environmental studies urban planning and policy transportation planning and

urban sociology Chinese Migrants and Africa's Development Doctor Ben Lampert, Doctor May Tan-Mullins, Daphne Chang, Giles Mohan, 2014-06-12 China's recent stepping up of relations with Africa is one of the most significant developments on the African continent for decades. For some it promises an end to Africa's dependent aid relationships as the Chinese bring expertise, technology and a stronger business focus. But for others it is no more than a new form of imperialism. This book is the first to systematically study the motivations, relationships and impact of this migration. It focuses not just on the Chinese migrants but also on the perceptions of and linkages to their African hosts. By studying this everyday interaction we get a much richer picture of whether this is South-South cooperation as political leaders would have us believe or a more complex relationship that can both compromise and encourage African development. **Research and Debate in Primary Geography** Simon Catling, 2017-10-02 This book brings together recent papers which make important contributions to understanding and developing primary geography. It considers primary teachers and trainee teachers' knowledge of geography, how the primary curriculum uses geography, teachers' planning of geography teaching, the way in which aspects of geography are taught, what high quality geography might look like and children's geographical understanding and voices. Though geography curricula change quite often in countries around the world, the core matters noted above remain of constant and vital importance. The papers in this book either concern research with primary teachers and children or consider key concerns in primary geography, providing important perspectives for thinking about future developments in geography teaching and curriculum initiatives in primary schools. This is a stimulating and enticing collection written by leading exponents of and experts in primary geography education. This book was originally published as a special issue of *Education* 313. *NTA UGC NET/JRF/SET Sociology 28 Solved Papers (2012-2021) & 10 Practice Sets* Prabhat Prakashan, 2022-05-02 Type of Book 2022 Edition NTA UGC NET JRF SET Sociology 28 Solved Papers 2012-2021 10 Practice Sets Subject NTA UGC NET JRF SET Sociology Index Cover 28 Solved Papers December 2012 to 2021 2700 Solved Questions with Answers for Practice 10 Practice Sets Qualities Easy Understandable for Preparation Complete syllabus accommodated with all the recent changes Based On Recently Updated Syllabus Latest Solved Papers Include NTA UGC NET JRF SET Sociology 28 Solved Papers 2012-2021 10 Practice Sets by Team Prabhat This book is designed to help candidates prepare for the National Testing Agency NTA UGC NET JRF SET Sociology exam.
