Penna and Bittinger's Precalculus A Right Triangle Approach is known for enabling students to see the math through its focus on visualization and early introduction to functions. With the Fourth Edition the authors continue to innovate by incorporating more ongoing review to help students develop their understanding and study effectively. Mid chapter Review exercise sets have been added to give students practice in synthesizing the concepts and new Study Summaries provide built in tools to help them prepare for tests. The MyMathLab course access kit required has been expanded so that the online content is even more integrated with the text's approach with the addition of Vocabulary Synthesis and Mid chapter Review exercises from the text as well as example based videos created by the authors. *Precalculus* Robert P. Schneider, Callie Daniels, 2013-10-03 A Graphical Approach to Precalculus with Limits A Unit Circle Approach illustrates how the graph of a function can be used to support the solutions of equations and inequalities involving the function. Beginning with linear functions in Chapter 1 the text uses a four part process to analyze each type of function starting first with the graph of the function then the equation the associated inequality of that equation and ending with applications. The text covers all of the topics typically caught in a college algebra course but with an organization that fosters students understanding of the interrelationships among graphs equations and inequalities. With the Fifth Edition the text continues to evolve as it addresses the changing needs of today's students. Included are additional components to build skills address critical thinking solve applications and apply technology to support traditional algebraic solutions while maintaining its unique table of contents and functions based approach. A Graphical Approach to Precalculus with Limits A Unit Circle Approach continues to incorporate an open design with helpful features and careful explanations of topics. **Precalculus Mathematics** Harley Flanders and Justin J.
