*Federal Register* ,2012-12      **Biz Jets** Almarin Phillips,A. Paul Phillips,Thomas R. Phillips,2012-12-06 *Biz Jets* Technology and Market Structure in the Corporate Jet Aircraft Industry traces the development of business jet aircraft from the mid 1950s through early 1993 It begins with a discussion of the technological and market opportunities existing in the period prior to the introduction of the Lockheed JetStar and the North American Sabreliner The subsequent appearances of other biz jets the Learjets HS 125s Jet Commanders Falcons Gulfstreams Citations Challengers Mitsubishis and derivative aircraft are treated in considerable detail *Biz Jets* also covers planes involved in many unsuccessful attempts to enter the industry from 1955 through 1993 The study shows that while the industry has been quite concentrated throughout its history the positions of the leading firms have always been contestable Indeed leaders at one point in time have often been displaced by others who succeeded in marshalling technological and market opportunities to their advantage Manufacturers have had to undertake continuous efforts to improve the price performance characteristics of their aircraft to gain and hold their market shares Rivalries in the effective use of the stream of new technologies have brought forth new aircraft with both better performance and lower operating costs At the same time however participation in the market has been extremely risky Only a few companies have been able to earn profits Entries exits and mergers have altered the structure of the industry but it remained decidedly unstable at least through 1992      *Aircraft Icing* United States. to establish The Pacific Winds in time for the new millennium in the Year of The Dragon      *F9F Panther vs Communist AAA*  
Peter E. Davies, 2022-06-23 A detailed look at the deadly battle between US Navy F9F Panther jet fighter bombers and  
communist anti aircraft artillery AAA defenses that proliferated throughout the Korean War The F9F Panther was one of the  
many fighters converted for ground attack duties following an established US tradition Originally designed as a jet fighter in  
April 1951 it became the first jet to launch from a carrier with bombs loaded using them to destroy a crucial railway bridge at  
Songjin The Panther s four 20 mm guns were considered to be very effective for flak suppression and these aircraft were  
used as escorts for propeller driven AD Skyraider and F4U Corsair attack aircraft However later in 1951 flak damage to  
Panthers increased as the Chinese established better AAA weapons to defend key transport routes The communist AAA crews  
had heavy guns of 37 mm caliber and above Gunners could use optical height finders predictors and in many cases radar  
control They learned to conceal their weapons in civilian buildings use wires to bring aircraft down and set up false targets  
as flak traps Both opponents tactics and gunnery are explored in depth in this study of the F9F Panthers and of their  
adversaries Containing full color illustrations including cockpit scenes and armament views this innovative volume also  
includes a detailed analysis of the US Navy Panthers loss rates and their causes      **Aero Digest** ,1954      **Flying**
