was to dismiss such self reference as impossible no term here false could refer to or in medieval terms supposit for a whole e g a proposition of which it is part In light of Bradwardine s criticisms Walter Segrave writing around 1330 defended so called restrictivism restrictio by claiming that such paradoxes exhibited a fallacy of accident The classic example of this fallacy the first of Aristotle s fallacies independent of language is the Hidden Man puzzle you know Coriscus Coriscus is the one approaching but you don t know the one approaching since e g he is wearing a mask But Aristotle s account is unclear and Segrave building on ideas of Giles of Rome and Walter Burley shows how the fallacy turns on an equivocation over the supposition of the middle term or one of the extremes in a syllogism Thereby Segrave is able to counter Bradwardine s arguments one by one and defend the restrictivist solution In this volume Segrave s text is edited from the three extant manuscripts is translated into English and is preceded by a substantial Introduction

The Maxims (Bilingual Edition: French Text, with a Revised English Translation) François de La Rochefoucauld, 2022-02-14 Of all the French epigrammatic writers La Rochefoucauld 1613 1680 is at once the most widely known and the most distinguished Voltaire said One of the works that most largely contributed to form the taste of the French nation and to diffuse a spirit of justice and precision is the collection of maxims by François duc de La Rochefoucauld though there is scarcely more than one truth running through the book that self love is the motive of everything yet this thought is presented under so many varied aspects that it is nearly always striking And Lord Chesterfield in his letters to his son Till you come to know mankind by your own experience I know no thing nor no man that can in the meantime bring you so well acquainted with them as La Rochefoucauld his little book of Maxims which I would advise you to look into for some moments at least every day of your life is I fear too like and too exact a picture of human nature I own it seems to degrade it but yet my experience does not convince me that it degrades it unjustly The Maxims were first published in 1665 under the title Reflections or sentences and moral maxims and the edition of 1678 the fifth from which the text has been used for the present translation was the last revised by the author and published in his lifetime with maxims numbered 1 to 504 Maxims which appeared in previous editions and were suppressed by La Rochefoucauld can be found in the second part entitled Maxims withdrawn by the author here numbered 505 to 583 The French original of this bilingual edition was reviewed by Philippe Renaud The English translation originally by John William Willis Bund and James Hain Friswell has been thoroughly revised by Rebecca Hazell and Philippe Renaud

Milan Kundera's Fiction Karen von Kunes, 2019-05-20 In Milan Kundera's Fiction A Critical Approach to Existential Betrayals Karen von Kunes traces Kundera's literary aspirations to a single episode in Czechoslovakia in the Stalinist era This moment attracted international attention when a 1950 police report was released in 2008 Reporters rushed to judgment accusing Kundera of denouncing Miroslav Dvořák to the police resulting in Dvořák's immediate arrest and sentencing to hard labor von Kunes debunks this shocking charge in a systematic way and argues that Kundera reported a suitcase not a man She ties Kundera's dominant themes of sex betrayal and political denouncement to the suitcase a fatal instrument that can lead to paradoxes and unforeseen and catastrophic coincidences for his characters

Controverting Kierkegaard K. E. Løgstrup, 2023-04-25 This is the first English edition of a major work by the Danish philosopher and theologian K E Løgstrup 1905 81 It is the culmination of his critical engagement with Kierkegaardianism which had begun almost 20 years earlier In this text Løgstrup focuses on four main themes in Kierkegaard his understanding of Christ and thus of Christianity his understanding of suffering in human existence Christian vs secular ethics and Platonistic influences on Kierkegaard's position which Løgstrup characterises as nihilistic Løgstrup presents his own alternative conception in response that Christ revealed universal ontological ethical structures that put Christians and non Christians on a par that suffering is a basic human experience and so there is no such thing as a

particular Christian suffering that sovereign expressions of life such as trust sincerity and compassion are the fundamental phenomena of ethics that enable our lives to function and are thus given as a gift of creation not of faith and finally that human existence as created is meaningful and holds value and so is not a Kierkegaardian nothingness of mere relativity As well as offering a classic and yet controversial critique of Kierkegaard this text also develops L gstrup s conception of the sovereign expressions of life which was to become central to his later ethics further deepening his distinctive understanding of the human condition Here translated in full for the first time it will now be possible for English speaking readers to explore the issues that drew L gstrup into his controversy with Kierkegaard

Robert Ariew, Roger Ariew, Marjorie Grene, 1995-10-15 Before publishing his landmark *Meditations* in 1641 Rene Descartes sent his manuscript to many leading thinkers to solicit their objections to his arguments He included these objections along with his own detailed replies as part of the first edition This unusual strategy gave Descartes a chance to address criticisms in advance and to demonstrate his willingness to consider diverse viewpoints critical in an age when radical ideas could result in condemnation by church and state or even death Descartes and his Contemporaries recreates the tumultuous intellectual community of seventeenth century Europe and provides a detailed modern analysis of the *Meditations* in its historical context The book's chapters examine the arguments and positions of each of the objectors Hobbes Gassendi Arnauld Morin Caterus Bourdin and others whose views were compiled by Mersenne They illuminate Descartes relationships to the scholastics and particularly the Jesuits to Mersenne's circle with its debates about the natural sciences to the Epicurean movements of his day and to the Augustinian tradition Providing a glimpse of the interactions among leading 17th century intellectuals as they grappled with major philosophical issues this book sheds light on how Descartes thought developed and was articulated in opposition to the ideas of his contemporaries *NET Bible, Full Notes Edition (NET)*
