ECIE 2019 14th European Conference on Innovation and Entrepreneurship (2 vols) Professor Panagiotis Liargovas, 2019-09-19 *Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* Bosch, Chantelle, Laubscher, Dorothy Joy, Kyei-Blankson, Lydia, 2021-05-14 Challenges in the educational arena are not new phenomena. However, with the recent outbreak of the COVID 19 pandemic, researchers and educators have been made even more aware of the need for a paradigm shift in education. Blended learning, as opposed to fully online learning or traditional face-to-face teaching, has been well researched and has been found to have the potential to provide better educational solutions in challenging contexts. These contexts range from pandemic situations where social distancing is the order of the day to financial and time constraints regarding full-time study as well as limited physical capacity at institutions. Blended learning solutions are often designed for resourceful institutions and cannot be easily implemented in developing countries and in communities where resources are limited. Typical issues like connectivity, accessibility, lack of suitable devices, and affordability need to be taken into consideration and in cognizance of blended learning interventions. These challenges are often neglected in blended learning research but are critical discussions to be had. *Re-Envisioning and Restructuring Blended Learning for Underprivileged Communities* shares how institutions in the developing world and less privileged communities have reimagined and restructured blended education to enhance teaching and learning for underprivileged communities. This book aims to address blended learning solutions across institutional, program, course, and activity levels. The chapters will cover a variety of learning environments from rural settings to less developed countries and more, and explore the programs and courses designed to improve student success and accessibility in diverse student populations. This book is ideally intended for teachers, administrators, teacher educators, practitioners, stakeholders, researchers, academicians, and students who are interested in blended learning opportunities in less privileged settings and to underserved and marginalized populations.

Illuminative Moments in Pacific Northwest Prose Richard W. Etulain, 2024-03-12 Richard W. Etulain examines the emergence of Pacific Northwest prose beginning in the early nineteenth century up to the present. The book provides an introductory overview to a vast subject through illuminative moments that illustrate major shifts in the literary history of the region. The book's focus is on novels, histories, and other nonfiction works that trace Pacific Northwest prose in chronological order through three periods: the frontier, regional, and post-regional eras. Etulain provides extensive coverage of the writings of notable authors, including novelists Frederic Homer Balch and Mary Hallock Foote, offering an understanding of frontier, romantic, and local color writers. He also explores the works of H. G. Merriam and novelist H. L. Davis, illustrating regional prose writings. Finally, Etulain includes a panoply of writers who exemplify an emphasis on gender, race, and ethnicity and environmental texts from the post-WWII period. *Illuminative Moments in Pacific Northwest Prose* delivers a first-time overview of the region's literary contributions that will interest both scholars and general readers alike.

Geology and

Geochemistry of Molybdenum Deposits in the Qinling Orogen, P R China YanJing Chen,Franco Pirajno,Nuo Li,XiaoHua Deng,YongFei Yang,2022-01-01 This book is the first systematic treatise of available data and view points obtained from geological and geochemical studies of the Mo deposits in Qinling Orogen China Qinling Orogen has a minimum reserve of 8 7 Mt Mo ranking the largest molybdenum province both in China and the world Incorporating all known Mo deposit types in the world it presents extensive studies of Mo deposits of world class and unusual types within tectonic settings The Qinling Orogen was finally formed during continental collision between Yangtze and North China cratons following the Triassic closure of the northernmost paleo Tethys It hosts 49 Mo deposits formed in seven mineralization events since 1850 Ma with all the world class deposits being formed during 160 105 Ma coeval with collisional orogeny These deposits are assigned to magmatic and metamorphic hydrothermal classes The magmatic hydrothermal class includes porphyries skarns and intrusion related veins carbonatite fluorite and quartz The porphyry Mo systems in Qinling Orogen are predominated by Dabie type formed in continental collision setting followed by Endako and Climax types formed in continental arcs and rifts respectively The metamorphic hydrothermal Mo deposits are only reported in Qinling Orogen and thus a new crustal continuum model for the orogenic class mineral systems is proposed A scientific linkage between ore geology and fluid inclusions is introduced and verified both by theory and case studies This is the first research book comprehensively displaying continental collision metallogeny This literature will benefit both Western and Chinese mineral explorers and miners as well as research scientists and students

The Work of Repair Thomas Cousins,2023-06-06 In the timber plantations in northeastern South Africa laborers work long hours among tall swaying lines of eucalypts on land once theirs In 2008 at the height of the HIV AIDS crisis timber corporations distributed hot cooked meals as a nutrition intervention to bolster falling productivity and profits But life and sustenance are about much more than calories and machinic bodies What is at stake is the nurturing of capacity across all domains of life physical relational cosmological in the form of amandla An Nguni word meaning power strength or capacity amandla organizes ordinary concerns with one s abilities to earn a wage to strengthen one s body and to take care of others it describes the potency of medicines and sexual vitality and it captures a history of anti colonial and anti apartheid struggle for freedom The ordinary actions coordinated by and directed at amandla do not obscure the wounding effects of plantation labor or the long history of racial oppression but rather form the basis of what the Algerian artist Kader Attia calls repair In this captivating ethnography Cousins examines how amandla as the primary material of the work of repair anchors ordinary scenes of living and working in and around the plantations As a space of exploitation that enables the global paper and packaging industry to extract labor power the plantation depends on the availability of creative action in ordinary life to capitalize on bodily capacity The Work of Repair is a fine grained exploration of the relationships between laborers in the timber plantations of KwaZulu Natal and the historical decompositions and reinventions of the milieu of those livelihoods and lives Offering a fresh approach to the existential

ethical and political stakes of ethnography from and of late liberal South Africa the book attends to urgent questions of postapartheid life the fate of employment the role of the state in providing welfare and access to treatment the regulation of popular curatives the queering of kinship and the future of custom and its territories Through detailed descriptions Cousins explicates the important and fragile techniques that constitute the work of repair the effort to augment one's capacity in a way that draws on acknowledges and reimagines the wounds of history keeping open the possibility of a future through and with others

Decolonising Science, Technology, Engineering and Mathematics (STEM) in an Age of Technocolonialism Nhemachena, Artwell, Hlabangane, Nokuthula, Matowanyika, Joseph Z. Z., 2020-03-02 Positioning the notions of coloniality of ignorance and geopolitics of ignorance as central to coloniality and colonisation this book examines how colonialists socially produced ignorance among colonised indigenous peoples so as to render them docile and manageable Dismissing colonial descriptions of indigenous people as savages illiterate irrational prelogical mystical primitive barbaric and backward the book argues that imperialists colonialists contrived geopolitics of ignorance wherein indigenous regions were forced to become ignorant hence containable and manageable in the imperial world Questioning the provenance of modernist epistemologies the book asks why Eurocentric scholars only contest the provenance of indigenous knowledges artefacts and scientific collections Interrogating why empire sponsors the decolonisation of universities epistemologies in indigenous territories while resisting the repatriation restitution of indigenous artefacts the book also wonders why Westerners who still retain indigenous artefacts skulls and skeletons in their museums universities and private collections do not consider such artefacts and skulls to be colonising them as well The book is valuable to scholars and activists in the fields of anthropology museums and heritage studies science and technology studies decoloniality policymaking education politics sociology and development studies

The Readmission of Asylum Seekers under International Law Mariagiulia Giuffr , 2020-02-20 This monograph could not be more timely as discourses relating to refugees access to territory rescue at sea push back and push back by proxy dominate political debate Looking at the questions which lie at the junction of migration control and refugee law standards it explores the extent to which readmission can hamper refugees access to protection Though it draws mainly on European law notably the European Convention on Human Rights it also examines other international frameworks including those employed by the United Nations and instruments such as the Refugee Convention Therefore this book is of importance to readers of international law refugee law human rights and migration studies at the global level It offers an analysis of both the legal and policy questions at play and engages fully with widely disputed cases concerning readmission agreements deportation with assurances and interception at sea By so doing this book seeks to clarify a complex field which has at times suffered from partiality in both its terminology and substance

Implementing EU Mobility Partnerships Fanny Tittel-Mosser, 2020-06-08 This book provides a comprehensive assessment of the effectiveness of Mobility Partnerships and their consequences for third countries Mobility

partnerships between the EU and third countries are usually viewed as reflecting asymmetric power relations where development aid trade relations and visa policies are made conditional upon the cooperation by third countries with an EU agenda of migration control This book argues that three main factors condition the relevance of Mobility Partnerships the state of relations between EU Member States and a third country and in particular the role of postcolonial ties the power of negotiation of a third country which is linked to its geopolitical importance for the EU and its administrative capacity which is understood as the capacity of a state to define and implement policies and to legislate and enforce the law The work combines a comparative legal analysis of the development of the legal and policy frameworks in the cases of Morocco and Cape Verde with an empirical study of the implementation of Mobility Partnerships projects The analysis demonstrates that Mobility Partnerships despite their non binding nature have legal and policy relevance for these third countries with regard to the regulation of migration asylum human trafficking and even labour law As such this book makes a contribution to the understanding of the interplay between the interests of EU Member State and third country actors in the implementation of the Mobility Partnerships The book will be a key resource for academics and students focusing on Migration Law EU Studies Geopolitics and African Studies The empirical approach will also appeal to policy makers international organisation representatives and NGOs

Critical Metals in Northwest China Xiaohua Deng, Yan-Jing Chen, Leon Bagas, Chang-Zhi Wu, 2022-02-24

The Intimidation Factor Charles Redfern, 2020-08-05 What do we do when a formerly vibrant back to the Bible movement drifts into a toxic swamp rimmed with attack dogs Charles Redfern faces that grim question squarely He discovers that American evangelical Christianity which surged in the mid twentieth century and offered a more genteel intellectually vigorous alternative to caustic fundamentalism fell into the hands of intimidators and backbiters It was a short journey from there to the movement's partisan sell out and the abandonment of time honored creeds Redfern describes his own story in which he came into the faith at the movement's height in the 1970s then views evangelicalism's decay across its spectrum He doesn't spare conflict adverse moderates in the process But he also discovers hope A winsome remnant survives and its wooing the back to the Bible people back to the Bible bearing the fruits of the Holy Spirit as they do so
