Race and the Wild West

Laura J. Arata, 2020-07-02 Winner of the Western Writers of America SPUR Award and the Western Association of Women Historians Gita Chaudhuri Prize Born a slave in eastern Tennessee Sarah Blair Bickford 1852 1931 made her way while still a teenager to Montana Territory where she settled in the mining boomtown of Virginia City Race and the Wild West is the first full length biography of this remarkable woman whose

life story affords new insight into race and belonging in the American West around the turn of the twentieth century For many years Sarah Bickford's known biography fit into a single paragraph By examining her life in all its complexity Arata fills in what were long believed to be unrecoverable silent spaces in her story Before establishing herself as a successful business owner we learn she was twice married both times to white men Her first husband an Irish immigrant physically abused her until she divorced him in 1881 Their three children all died before the age of ten In 1883 she married Stephen Bickford and gave birth to four more children Upon his death she inherited his shares of the Virginia City Water Company acquiring sole ownership in 1917 For the final decade of her life Bickford actively preserved and promoted a historic Virginia City building best known as the site of the brutal lynching in 1864 of five men Her conspicuous role in developing an early form of heritage tourism challenges long standing narratives that place white men at the center of the Wild West myth and its promotion Bickford's story offers a window into the dynamics of race in the rural West Although her experiences defy easy categorization what is clear is that her navigation of social norms and racial barriers did not hinge on exceptionalism or tokenism Instead she built a life that deserves to be understood on its own terms Through exhaustive research and nuanced analysis Laura J Arata advances our understanding of a woman whose life embodied the contradictory intersections of hope and disappointment that characterized life in the early twentieth century American West for brave pioneers of many races

Recovering the Voice in Our Techno-Social World Deborah Eicher-Catt, 2020-02-18 Using a communicological perspective *Recovering the Voice in our Techno Social World* On the Phone identifies voice phone in Greek as the essential medium for a re enchantment of human communication in our highly impersonal techno social environment This book is a response to the growing concern by social critics that we are becoming a de voiced society because of our preferences for hyper textual image based forms of electronic connectivity Ironically while we are increasingly on the phone we are sacrificing our vocality within immediate ear to ear relations Framed by the trope of enchantment Deborah Eicher Catt argues that the immediacy of the sounding voice calls us

and enchants us to make possible productive moments of resonance in which we might cultivate an interpersonal resilience in today's fast-paced media saturated environment. Scholars of media studies, communication and sociology will find this book particularly useful.

Utopian Universities Miles Taylor, Jill Pellew, 2020-11-12

In a remarkable decade of public investment in higher education, some 200 new university campuses were established worldwide between 1961 and 1970. This volume offers a comparative and connective global history of these institutions, illustrating how their establishment, intellectual output and pedagogical experimentation sheds light on the social and cultural topography of the long 1960s. With an impressive geographic coverage using case studies from Europe, the Americas, Africa and Asia, the book explores how these universities have influenced academic disciplines and pioneered new types of teaching, architectural design and student experience. From educational reform in West Germany to the establishment of new institutions with progressive interdisciplinary curricula in the Commonwealth, the illuminating case studies of this volume demonstrate how these universities shared in a common cause: the embodiment of utopian ideals of living, learning and governance. At a time when the role of higher education is fiercely debated, *Utopian Universities* is a timely and considered intervention that offers a wide-ranging historical dimension to contemporary predicaments.
