Northampton State Hospital Images Of America:

Northampton State Hospital J. Michael Moore, Anna Schuleit Haber, 2014-10-27 Northampton State Hospital established in 1856 was built with the optimistic spirit of humanitarian reform For many years it was run by Dr Pliny Earle a champion of treatment that combined individualized care with manual labor religious worship recreation and amusement This vision was overwhelmed as the hospital was called upon to care for ever larger numbers of people with varying needs By the mid 20th century the hospital was an isolated small city with hundreds of employees caring for more than 2 000 patients in overcrowded and inadequate conditions It became a nationally important center of political and legal struggle over the role of state hospitals in the care of the mentally ill After being gradually phased out the hospital was closed in 1993 and the buildings though listed in the National Register of Historic Places were demolished in 2006 This volume brings to life the 135 year story of Northampton State Hospital through beautiful and haunting photographs drawn from the collections of Historic Northampton the city's local history museum

Pet Projects Elizabeth Young, 2019-12-17 In *Pet Projects* Elizabeth Young joins an analysis of the representation of animals in nineteenth century fiction taxidermy and the visual arts with a first person reflection on her own scholarly journey Centering on Margaret Marshall Saunders a Canadian woman writer once famous for her animal novels and incorporating Young's own experience of a beloved animal's illness this study highlights the personal and intellectual stakes of a pet project of cultural criticism Young assembles a broad archive of materials beginning with Saunders's novels and widening outward to include fiction nonfiction photography and taxidermy She coins the term first dog voice to describe the narrative technique of novels such as Saunders's *Beautiful Joe* written in the first person from the perspective of an animal She connects this voice to contemporary political issues revealing how animal fiction such as Saunders's reanimates nineteenth century writing about both feminism and slavery Highlighting the prominence of taxidermy in the late nineteenth century she suggests that Saunders transforms taxidermic techniques in surprising ways that provide new forms of authority for women Young adapts Freud to analyze literary representations of mourning by and for animals and she examines how Canadian writers including Saunders use animals to explore race ethnicity and national identity Her wide ranging investigation incorporates twenty first as well as nineteenth century works of literature and culture including recent art using taxidermy and contemporary film Throughout she reflects on the tools she uses to craft her analyses examining the state of scholarly fields from feminist criticism to animal studies With a lively first person voice that highlights experiences usually concealed in academic studies by scholarly discourse such as detours zigzags roadblocks and personal experience this unique and innovative book will delight animal enthusiasts and academics in the fields of animal studies gender studies American studies and Canadian studies

I'm So Glad You're Here Pamela Gay, 2025-07-30 *I'm So Glad You're Here* is the story of a family disrupted by ramifications of a father's mental illness The memoir opens with a riveting account of Gay age eighteen witnessing her father being bound in a straitjacket and carried out of the house on a

stretcher The trauma she experiences escalates when after her father has had electroshock treatments at a state mental hospital her parents leave her in a college dorm room and move from Massachusetts to Florida without her She feels abandoned Both her parents have gone missing Decades later when Gay and her three much older siblings show up for their father s funeral she witnesses her sundered family s inability to gather together Eventually she is diagnosed with PTSD of abandonment and treated with EMDR therapy and finally begins to heal Poignant and powerful I m So Glad You re Here is Gay s exploration of the idea that while the wounds we carry from growing up in fractured families stay with us they do not have to control us a reflective journey that will inspire readers to think about their own relational lives Investigation of the Veterans' Administration with a Particular View to Determining the Efficiency of the Administration and Operation of Veterans' Administration Facilities United States. Congress. House. Committee on World War Veterans' Legislation, 1945 Pt 5 Includes Manual of Standardization by American College of Surgeons p 1899 2026 pt 7 July 20 and 21 hearings were held in Wood Wis July 24 hearing was held in Milwaukee Wis *The American Journal of Insanity*, 1916 **Mental institutions in America** Gerald N. Grob, *Mental Institutions in America Social Policy to 1875* examines how American society responded to complex problems arising out of mental illness in the nineteenth century All societies have had to confront sickness disease and dependency and have developed their own ways of dealing with these phenomena The mental hospital became the characteristic institution charged with the responsibility of providing care and treatment for individuals seemingly incapable of caring for themselves during protracted periods of incapacitation The services rendered by the hospital were of benefit not merely to the afflicted individual but to the community Such an institution embodied a series of moral imperatives by providing humane and scientific treatment of disabled individuals many of whose families were unable to care for them at home or to pay the high costs of private institutional care Yet the mental hospital has always been more than simply an institution that offered care and treatment for the sick and disabled Its structure and functions have usually been linked with a variety of external economic political social and intellectual forces if only because the way in which a society handled problems of disease and dependency was partly governed by its social structure and values The definition of disease the criteria for institutionalization the financial and administrative structures governing hospitals the nature of the decision making process differential care and treatment of various socio economic groups were issues that transcended strictly medical and scientific considerations *Mental Institutions in America* attempts to interpret the mental hospital as a social as well as a medical institution and to illuminate the evolution of policy toward dependent groups such as the mentally ill This classic text brilliantly studies the past in depth and on its own terms **Painting Dissent** Sophie Lynford, 2022-09-20 A revelatory history of the first artist collective in the United States and its effort to reshape nineteenth century art culture and politics The American Pre Raphaelites founded a uniquely interdisciplinary movement composed of politically radical abolitionist artists and like minded architects critics and scientists Active during the Civil War this dynamic collective united

in a spirit of protest seeking sweeping reforms of national art and culture *Painting Dissent* recovers the American Pre Raphaelites from the margins of history and situates them at the center of transatlantic debates about art slavery education and politics Artists such as Thomas Charles Farrer and John Henry Hill championed a new style of landscape painting characterized by vibrant palettes antipicturesque compositions and meticulous brushwork Their radicalism however was not solely one of style Sophie Lynford traces how the American Pre Raphaelites proclaimed themselves catalysts of a wide ranging reform movement that staged politically motivated interventions in multiple cultural arenas from architecture and criticism to collecting exhibition design and higher education She examines how they publicly rejected their prominent contemporaries the artists known as the Hudson River School and how they offered incisive critiques of antebellum society by importing British models of landscape theory and practice Beautifully illustrated and drawing on a wealth of archival material *Painting Dissent* transforms our understanding of how American artists depicted the nation during the most turbulent decades of the nineteenth century

Nowhere to Go E. Fuller Torrey, 2025-03-20 This open access book attempts to answer the question Why are so many severely mentally ill people homeless or incarcerated Updated since its original 1988 release this book tracks the history of this question in the United States The answer begins in 1955 when the United States deinstitutionalized the 559 000 patients who were in state mental hospitals Today only 35 000 remain In 1963 Congress funded President Kennedy's proposed federally funded Community Mental Health Centers CMHCs whose main purpose was to provide care for the patients being released from the hospitals However most of the CMHCs never did so but rather became counseling centers for individuals with less serious mental illnesses The lack of psychiatric aftercare for severely mentally ill individuals resulted in more than 200 000 of them who are homeless and more than 250 000 others who are in jails and prisons This story also includes little known details such as the role played by conscientious objectors who worked in the state hospitals during WWII Rosemary Kennedy's psychosis the influence of the conservative John Birch Society on Presidents Nixon and Reagan and mental health myths incorrectly attributed to Reagan Finally the book discusses what needs to be done to improve the mental illness treatment system This is an ideal guide for psychiatrists psychologists and members of the public who are concerned about homelessness
