Traditional Chinese Fiction in the English-Speaking World Junjie Luo, 2022-08-16. This book develops interdisciplinary and comparative approaches to analyzing the cross-cultural travels of traditional Chinese fiction. It ties this genre to issues such as translation, world literature, digital humanities, book culture, and images of China. Each chapter offers a case study of the historical and cultural conditions under which traditional Chinese fiction has traveled to the English-speaking world, proposing a critical lens that can be used to explain these cross-cultural encounters. The book seeks to identify connections between traditional Chinese fiction and other cultures that create new meanings and add to the significance of reading, teaching, and studying these classical novels and stories in the English-speaking world. Scholars, students, and general readers who are interested in traditional Chinese fiction, translation studies, and comparative and world literature will find this book useful.

Canon

Fanfiction Christine Schott, 2023-01-30 Several scholarly fields investigate the reuse of source texts most relevantly adaptation studies and fanfiction studies The limitation of these two fields is that adaptation studies focuses narrowly on retelling usually in the form of film adaptations but is not as well equipped to treat other uses of source material like prequels sequels and spinoffs On the other hand fanfiction studies has the broad reach adaptation studies lacks but is generally interested in underground production rather than material that goes through the official publication process and thus enters the literary canon This book sits in the gap between these fields discussing published novels and their contribution to the scholarly engagement with their pre and early modern source material as well as applying that creative framework to the teaching of literature in the college classroom Women, Literature and Development in Africa Anthonia C. Kalu, 2019-12-09 This book is a powerful exploration of the role of women in the evolution of African thinking and narratives on development from the precolonial period right through to the modern day Whilst the book identifies women s oppression and marginalization as significant challenges to contemporary Africa s advancement it also explores how new written narratives draw on traditional African knowledge systems to bring deep rooted and sometimes radical approaches to progress The book asserts that Africans must tell their own stories expressed through the complex meanings and nuances of African languages and often conveyed through oral traditions and storytelling in which women play an important role The book s close examination of language and meaning in the African narrative tradition advances the illumination and elevation of African storytelling as part of a viable and valid knowledge base in its own right rather than as an extension of European paradigms and methods Anthonia C Kalu s new edition of this important book fully revised throughout will also include fresh analysis of the role of digital media education and religion in African narratives At a time when the prominence and participation of African women in development and sociopolitical debates is growing this book s exploration of their lived experiences and narrative contribution will be of interest to students of African literature gender studies development history and sociology
