PERIODIC TABLE ORGANIZATION

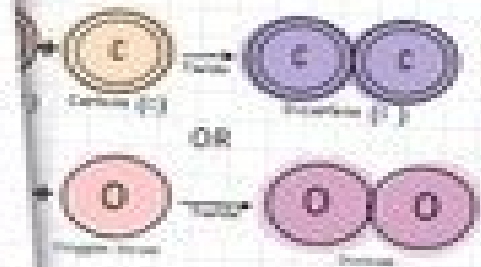

Get lost on the periodic table represents a specific element's location on the PT way carefully assignments based on each elements properties

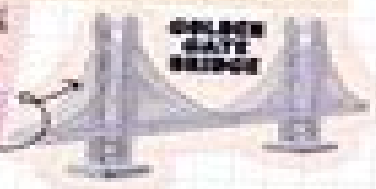

DIATOMIC MOLECULES

Many 2 of most atoms of the same element chemically combine they are then classified as an element because they are composed of the same type of atom. They are just molecules. These types of molecules are called diatomic molecules they are usually represented as 2

Understanding of the structure of atoms helps determine how each molecule will affect the ability to react with other elements
