November 2014 Business Studies Scope:

Sustainable Investing Cary Krosinsky, Sophie Purdom, 2016-12-08 A seminal shift has taken place in the world of investing. A clear and overarching reality has emerged which must be solved: financial considerations must factor in sustainability considerations for ongoing societal success while sustainability issues equally need to be driven by a business case. As a result, investment practices are evolving especially towards more positive philosophies and frameworks. Sustainable Investing brings the reader up to speed on trends playing out in each region and asset class, drawing on contributions from leading practitioners across the globe. Implications abound for financial professionals and other interested investors as well as corporations seeking to understand future investment trends that will affect their shareholders. Thinking: Policymakers and other stakeholders also need to be aware of what is happening in order to understand how they can be most effective at helping implement and enable the changes arguably now required for economic and financial success. Sustainable Investing represents an essential overview of sustainable investment practices that will be a valuable resource for students and scholars of sustainable banking and finance as well as professionals and policymakers with an interest in this fast-moving field.

Environmental Pollution and the Media Glenn D. Hook, Libby Lester, Meng Ji, Kingsley Edney, Chris G. Pope, Luli van der Does-Ishikawa, 2017-04-07 This book offers a theoretically informed empirical investigation of national media reporting and political discourse on environmental issues in Australia, China, and Japan. It illuminates the risks, harms, and responsibilities associated with climate change through an analysis of pollution, adopting an interdisciplinary approach drawing on both the social sciences and humanities. A particular strength of the work is the detailed analysis of the data using a range of both quantitative and qualitative techniques, enabling the authors to reveal in rich and compelling detail the complex relationship between risk and responsibility in the climate change discourse. The case studies of Australia, China, and Japan are set in the current literature as well as in the historical context of climate change in these three countries. The analysis of the media discourse on the Great Barrier Reef in Australia demonstrates how the mining of coal for overseas markets has led to devastating harm to the life of the reef. A critical discussion of the Chinese documentary *Under the Dome* shows how this medium has played a crucial role in building awareness of the harm from atmospheric pollution among the citizens, shaping attitudes and promoting action. The first case study of Japan elucidates how cross-border atmospheric pollution from China forges a chain of responsibility for responding to climate change, running from the state to society. The other case study of Japan demonstrates how smart cities have emerged as a way to mitigate the risks and harms of climate change. The Conclusion draws together the similarities and differences in how climate change is addressed in the three countries. In all, *Environmental Pollution and the Media* uncovers the dynamics of the triadic relationship among risk, harm, and climate change in Australia, China, and Japan. By so doing, the book makes an original and timely contribution to understanding comparative media discourse and political

debates on climate change *Information Systems Design and Intelligent Applications* Vikrant Bhateja, Bao Le Nguyen, Nhu Gia Nguyen, Suresh Chandra Satapathy, Dac-Nhuong Le, 2018-03-01 The book is a collection of high quality peer reviewed research papers presented at International Conference on Information System Design and Intelligent Applications INDIA 2017 held at Duy Tan University Da Nang Vietnam during 15 17 June 2017 The book covers a wide range of topics of computer science and information technology discipline ranging from image processing database application data mining grid and cloud computing bioinformatics and many others The various intelligent tools like swarm intelligence artificial intelligence evolutionary algorithms bio inspired algorithms have been well applied in different domains for solving various challenging problems **Daily Graphic** Ransford Tetteh, 2014-03-10 *Handbook of Business Studies* Arihant Experts, 2018-04-20 The handbook of Business Studies has been designed for the students studying in Class XI XII to act as the revision cum Quick Study Resource for various concepts of Business Studies This handbook is a multipurpose quick revision resource with unique format which displays concepts clearly places them in context and crisply identifies and describes all the factors involved This handbook has been divided into 25 chapters namely Concepts of Business Forms of Business Organisation Private Sector Entrepreneurship well illustrated with examples and diagrams In the nutshell this book can be used as a compact and portable reference book for study purpose and for general reference Due to its simple information and lucid language it can also be used for general reference This book will prove to be highly useful for aspirants preparing for competitive examinations like CET BBA BCA ICWA CMA CS etc *Cost Studies of Buildings* Allan Ashworth, Srinath Perera, 2015-07-16 This practical guide to cost studies of buildings has been updated and revised throughout for the 6th edition New developments in RICS New Rules of Measurement NRM are incorporated throughout the book in addition to new material on e business the internet social media building information modelling sustainability building resilience and carbon estimating This trusted and easy to use guide to the cost management role Focuses on the importance of costs of constructing projects during the different phases of the construction process Features learning outcomes and self assessment questions for each chapter Addresses the requirements of international readers From introductory data on the construction industry and the history of construction economics to recommended methods for cost analysis and post contract cost control *Cost Studies of Buildings* is an ideal companion for anyone learning about cost management **The Autonomy of Labour Law** Alan Bogg, Cathryn Costello, ACL Davies, Jeremias Adams-Prassl, 2015-03-26 To what extent is labour law an autonomous field of study This book is based upon the papers written by a group of leading international scholars on this theme delivered at a conference to mark Professor Mark Freedland's retirement from his teaching fellowship in Oxford The chapters explore the boundaries and connections between labour law and other legal disciplines such as company law competition law contract law and public law labour law and legal methodologies such as reflexive governance and comparative law and labour law and other disciplines such as ethics economics and political
