More Than a Game Mark Gregory, 2021-09-02 A top to bottom look at England's national game from one of the UK's leading business economists The Premier League is the most commercially successful football league in history the self proclaimed best league in the world But success has come at a cost unbalancing the English game to a profound and damaging degree Football's stumbling response to COVID 19 and the European Super League disaster are just the most recent examples It is estimated that more than two thirds of the country's 92 professional clubs are loss making payments to agents each year regularly total more than the combined income of all 44 clubs in Leagues 1 and 2 supporters have been squeezed to the limit racist incidents are on the rise grassroots facilities are in a dreadful state and failed World Cup bids have severely weakened England's standing in the global game The national team's performance at Euro 2020 can't paper over the cracks There is an alternative In this revealing and eye opening analysis leading economist Mark Gregory reveals the breadth and depth of the problems facing our national men's game and shows us a way to bring football home for good

Football, Community and Social Inclusion Daniel Parnell, David Richardson, 2017-10-02 This special issue addresses the complex reality of English community football organisations including Football in the Community FitC schemes which have been attending to social agendas such as social inclusion and health promotion The positioning of football as a key agent of change for this diverse range of social issues has resulted in an increase in funding support Despite the increased availability of funding and the apparent willingness of football clubs to adopt such an altruistic position within society there remains limited empirical evidence to substantiate football's ability to deliver results This book explores the

current role of a football and football clubs in supporting and delivering social inclusion and health promotion to its community and seeks to examine the philosophical political environmental and practical challenges of this work The power and subsequent lure of a football club and its brand is an ideal vehicle to entice and capture populations that normally ignore or turn away from positive social and or health behaviours The foundations of such a belief are examined outlining key recommendations and considerations for both researchers and practitioners attending to these social and health issues through the vehicle of football This book was originally published as a special issue of Soccer Society *The People's Game?* Stephen Morrow, 2023-01-24 The beautiful game is big business Football leagues worldwide are being dominated by clubs which are becoming richer and more powerful Since the first edition of this book was published in 2003 much has changed in the industry However the central challenge remains how best football its leagues and clubs can navigate a path between the logic of the market and the logic of community social while also remaining focused on a sporting logic In this second edition author Stephen Morrow offers a critique of football s economic structure prevalent models of club ownership and governance and new approaches to regulation that have emerged The book also reflects on the Covid 19 pandemic and on ways in which it has illuminated many of the structural weaknesses inherent in football It also offers an insight into the woman s game and its financial development in some countries as well discussing issues such as football s response to environmental challenges Drawing on theory and new literature from across relevant academic disciplines this book seeks to make sense of the current challenges while also putting forward solutions as to how football can continue to harness and build on its social and community significance
