Masculinity in the Contemporary Romantic Comedy

John Alberti,2013-09-11 This volume addresses the growing obsolescence of traditional constructions of masculine identity in popular romantic comedies by proposing an approach that combines gender and genre theory to examine the ongoing radical reconstruction of gender roles in these films Alberti creates a unified theory of gender role change in the movies that combines the insights of both poststructuralist gender and narrative genre theory avoiding binary approaches to the study of gender representation He establishes the current crises in both gender representation and genre development within romantic comedies as examples of experimentation and change towards narratives that feature more egalitarian and less essentialist constructions of gender

Scoring the Screen Andy Hill,2017-07-01 Today musical composition for films is more popular than ever In professional and academic spheres media music study and practice are growing undergraduate and postgraduate programs in media scoring are offered by dozens of major colleges and universities And increasingly pop and contemporary classical composers are expanding their reach into cinema and other forms of screen entertainment Yet a search on Amazon reveals at least 50 titles under the category of film music and remarkably only a meager few actually allow readers to see the music itself while none of them examine landmark scores like Vertigo To Kill a Mockingbird Patton The Untouchables or The Matrix in the detail provided by Scoring the Screen The Secret Language of Film Music This is the first book since Roy M Prendergast's 1977 benchmark Film Music A Neglected Art to treat music for motion pictures as a compositional style worthy of serious study Through extensive and unprecedented analyses of the original concert scores it is the first to offer both aspiring composers and music educators with a view from the inside of the actual process of scoring to picture The core thesis of Scoring the Screen is that music for motion pictures is indeed a language developed by the masters of the craft out of a dramatic and commercial necessity to communicate ideas and emotions instantaneously to an audience Like all languages it exists primarily to convey meaning To quote renowned

orchestrator Conrad Pope who has worked with John Williams Howard Shore and Alexandre Desplat among others If you have any interest in what music means in film get this book Andy Hill is among the handful of penetrating minds and ears engaged in film music today **Gender, Sexuality and Queerness in American Horror Story** Harriet E.H.

Earle,2019-08-21 The horror anthology TV show American Horror Story first aired on FX Horror in 2011 and has thus far spanned eight seasons Addressing many areas of cultural concern the show has tapped in to conversations about celebrity culture family dynamics and more This volume with nine new essays and one reprinted one considers how this series engages with representations of gender sexuality queer identities and other LGBTQ issues The contributors address myriad elements of American Horror Story from the relationship between gender and nature to contemporary masculinities offering a sustained analysis of a show that has proven to be central to contemporary genre television *An American Dictionary of the English Language* Noah Webster,1877 *Queer Cinema in the World* Karl Schoonover,Rosalind Galt,2016-11-17

Proposing a radical vision of cinema s queer globalism Karl Schoonover and Rosalind Galt explore how queer filmmaking intersects with international sexual cultures geopolitics and aesthetics to disrupt dominant modes of world making Whether in its exploration of queer cinematic temporality the paradox of the queer popular or the deviant ecologies of the queer pastoral Schoonover and Galt reimagine the scope of queer film studies The authors move beyond the gay art cinema canon to consider a broad range of films from Chinese lesbian drama and Swedish genderqueer documentary to Bangladeshi melodrama and Bolivian activist video Schoonover and Galt make a case for the centrality of queerness in cinema and trace how queer cinema circulates around the globe institutionally via film festivals online consumption and human rights campaigns but also affectively in the production of a queer sensorium In this account cinema creates a uniquely potent mode of queer worldliness one that disrupts normative ways of being in the world and forges revised modes of belonging
