The Use of Pop Songs in the EFL Classroom Ornerová Lenka, 2011-03-09 Inhaltsangabe Introduction I have chosen the topic of using pop songs in the EFL classroom because I strongly believe that working with pop songs is a highly motivational device When I was a student at a lower and upper secondary school listening to songs in English classes was my favourite activity I have always wanted to be able to understand the lyrics of songs I listened to Later I realized that I have learned a lot from listening to pop songs and analyzing their lyrics Therefore in my diploma project I would like to prove that using pop songs is a highly motivational device in teaching English with instructional value and that students enjoy working with pop songs The theoretical part of this diploma project is based on relevant sources of background literature In the first two chapters the use of songs is described with regard to motivation and the Multiple Intelligences Theory The third and fourth chapter deal with the reasons for using songs and their classification In the last two chapters of the theoretical part pedagogical principles of using pop songs in class as well as the pros and cons of teaching through pop songs are presented The practical part is based on the findings of three surveys I have conducted in the field of using songs in the EFL classroom In the first part of the research I present an analysis of questionnaires which I distributed among English teachers at lower and upper secondary schools and grammar schools In the second part of the research I describe students attitudes to pop song based lessons which I taught during my teaching practice at grammar schools In the third part of the research I analyze the types of songs presented in commonly used textbooks at lower and upper secondary schools In addition I present a self developed teaching material containing a list of pop songs suitable for the EFL classroom In the last part of the practical part I answer the research questions and provide some implications for my own teaching Inhaltsverzeichnis Table of Contents ABBREVIATIONS AND DEFINITIONS ABSTRACT INTRODUCTION9 THEORETICAL PART 1 MOTIVATION10 1 1Definition of motivation10 1 2Different kinds of motivation11 1 3Motivation in second language acquisition learning vs foreign language learning12 1 4Sources of motivation in the EFL classroom14 2 MULTIPLE INTELLIGENCES16 2 1The categories of intelligence17 2 2The implications of MI theory for ELT19 2 3Musical

Language and Culture in the Intercultural World Vesna Mikolič,2020-12-09 The intensification of contacts between cultures and languages has a major impact on all social spheres today Multiculturalism and multilingualism are important elements of the local regional national and global community Much of the world s conflict stems from the contrast between globalization and nationalism fuelled by religions racial divisions traditions and other cultural particularities Focusing mainly on the situation in Central and South eastern Europe this book addresses how cultural identities develop through tourism education literature and other social fields and how language and literature teaching should be planned in this context It consists of the following sections Language Culture and Tourism Interculturalism Multilingualism and Approaches to Language Learning and Culture in Literature and Translation The volume will be of interest to teachers and researchers of cultural and tourism studies linguistics and language learning literary studies and translation while also addressing wider readers interested in contemporary intercultural society The Craft of Research, Third Edition Wayne C. Booth,Gregory G. Colomb,Joseph M. Williams,2009-05-15 With more than 400 000 copies now in print The Craft of Research is the unrivaled resource for researchers at every level from first year undergraduates to research reporters at corporations and government offices Seasoned researchers and educators Gregory G Colomb and Joseph M Williams present an updated third edition of their classic handbook whose first and second editions were written in collaboration with the late Wayne C Booth The Craft of Research explains how to build an argument that motivates readers to accept a claim how to anticipate the reservations of readers and to respond to them appropriately and how to create introductions and conclusions that answer that most demanding question So what The third edition includes an expanded discussion of the essential early stages of a research task planning and drafting a paper The authors have revised and fully updated their section on electronic research emphasizing the need to distinguish between trustworthy sources such as those found in libraries and less reliable sources found with a quick Web search A chapter on warrants has also been thoroughly reviewed to make this difficult subject easier for researchers Throughout the authors have preserved the amiable tone the reliable voice and the sense of directness that have made this book indispensable for anyone undertaking a research project How can the use of frequency information from corpora be used in foreign language teaching? A corpus-based study on vocabulary in course books Karin Dietiová,2019-02-27 Diploma Thesis from the year 2016 in the subject Didactics for the subject English Pedagogy Literature Studies grade A course Angli tina language English abstract How can corpora be used to improve vocabulary learning in language acquisition This thesis focuses on the use of word frequencies by teachers

of English Teaching vocabulary to young learners is one of the most challenging responsibilities that teachers face The methodology chosen for the presentation of vocabulary is crucial for the learning success of the students There is a great amount of studies on how computers can facilitate the learning of English as a foreign language EFL and with the development of immense corpora both teachers and students now have access to hundreds of millions of words and the possibility to explore their occurrence patterns This advantage is however rarely used in practice partly due to the relatively short existence of this discipline but most importantly due to the lack of information about corpora in English language teaching ELT This paper will present the concept of course book vocabulary and present word frequencies in learner s dictionaries The research part of this thesis deals with a linguistic analysis of data extracted from course books and their comparison with the Oxford list of 3000 essential words The aim of the thesis is to investigate the linguistic attributes of texts forming course books and to examine their relation

New Digital Worlds Roopika Risam, 2018-11-15 The emergence of digital humanities has been heralded for its commitment to openness access and the democratizing of knowledge but it raises a number of questions about omissions with respect to race gender sexuality disability and nation Postcolonial digital humanities is one approach to uncovering and remedying inequalities in digital knowledge production which is implicated in an information age politics of knowledge *New Digital Worlds* traces the formation of postcolonial studies and digital humanities as fields identifying how they can intervene in knowledge production in the digital age Roopika Risam examines the role of colonial violence in the development of digital archives and the possibilities of postcolonial digital archives for resisting this violence Offering a reading of the colonialist dimensions of global organizations for digital humanities research she explores efforts to decenter these institutions by emphasizing the local practices that subtend global formations and pedagogical approaches that support this decentering Last Risam attends to human futures in new digital worlds evaluating both how algorithms and natural language processing software used in digital humanities projects produce universalist notions of the human and also how to resist this phenomenon

The Intersection of Library Learning and Second-Language Learning Karen Bordonaro, 2013-12-01 Language learning and library learning in a university setting are closely related endeavors that intersect at various times and locations and with various teachers and learners This book is an examination of how these intersections are experienced by language learners Its aim is to explore the two types of

learning to help sustain and develop the learning in both areas The Intersection of Library Learning and Second Language Learning Theory and Practice is aimed at practitioners both librarians and language instructors and describes everyday scenarios which will resonate with academic librarians and language instructors It presents practical experiences and accompanies them with a consideration of the literature of both librarianship and language education It reviews and evaluates professional practices employed by working librarians and language instructors in their dealings with international students Considerations of the intersections between language learning and library learning are placed within a theoretical framework of learner autonomy This framework offers librarians and language instructors methods and practices that enable students to take control of their learning in the areas of both language learning and library learning A concluding chapter offers ways to connect the framework of learner autonomy to settings outside that of a university context

Resources in Education ,2000-04 The Spectator ,1910 **Enacted Mathematics Curriculum** Denisse R Thompson,Zalman Usiskin,2014-01-01 This volume is an outgrowth of the Conference on Research on the Enacted Mathematics Curriculum funded by the National Science Foundation and held in Tampa Florida in November 2010 The volume has the potential to be useful to a range of researchers from established veterans in curriculum research to new researchers in this area of mathematics education The chapters can be used to generate conversation about researching the enacted mathematics curriculum including similarities and differences in the variables that can and should be studied across various curricula As such it might be used by a curriculum project team as it outlines a research agenda for curriculum or program evaluation It might also be used as a text in a university graduate course on curriculum research and design The chapters in this volume are a natural complement to those in Approaches to Studying the Enacted Mathematics Curriculum Heck Chval Weiss Ziebarth 2012 also published by Information Age Publishing While the present volume focuses on a range of issues related to researching the enacted mathematics curriculum including theoretical and conceptual issues the volume by Heck et al provides insights into different instrumentations used by groups of researchers to study curriculum enactment
