

PARTNER K950/K1250 ACTIVE

The Partner K950 Active and K1250 Active are a new generation of cutters in the big-machine class. They are characterised by low weight in relation to power output, allied to ergonomics of exceptional class.

The Partner K950 Active has a power output that places it among the largest machines on the market, but it weighs no more than a medium-class machine. It is available in variants for three blade sizes: 12", 14" and 16".

The Partner K1250 Active has the highest power output among all cutting machines on the market. Its weight/power ratio is also unbeatable. It is available with 14" and 16" blade sizes.

The Active generation was launched with the K650/K700 medium-class machines. The ideas and equipment concepts developed there have been refined and transferred to the K950 and K1250 Active.

Both machines share the same basic design, and several of their characteristics place these machines in a class all their own:

- Highest power in relation to weight.
- Ergonomic design to ensure that the machine is comfortable and simple to use, and at the same time safe in everyday operation.
- Operating reliability, long service life and minimum

service requirements, all of which are crucial to good cutting economy.

- The unique Active Air Filtration system effectively cleans the intake air utilising three different filtration principles, thus promoting long service intervals.
- The SmartCarb™ carburettor maintains a constant blend of air and fuel irrespective of the condition of the air filters. As a result, the machine's performance is virtually unaffected by dirty filters. Unchanged power output between services and lower emissions are two of the benefits of the new carburettor.
- The starter. The Dura Starter is totally sealed from dust and features grease lubrication. The pulley is spring-loaded and is thus not subject to vibration-induced wear. (Applies only to the K950 Active.)
- New cutting blade shield which is automatically adjusted to suit the machine's movement.
- Encapsulated cutting arm protects the transmission from dust and water. This design eliminates belt slip when wet-cutting.
- Partner offers a range of accessories and top-class cutting blades with properties honed specifically for free-hand cutting.
