a critical analysis of the contentious role of education in the emergence of conflict as well as the effects of violence on education Pherali engages with sociological and political theories to analyse the emergence and expansion of armed rebellion and discuss implications for peacebuilding and social transformation He argues that education in Nepal played a complicit role in the conflict primarily benefitting the traditionally privileged social groups in the society and hence perpetuating the existing structural inequalities which were the major causes of the rebellion Schools trapped in the middle of the conflict between the Maoists and the security forces became a significant political space that facilitated critical education providing intellectual strength to the violent rebellion Exploring education after the conflict the author argues that the reconstruction should adopt a conflict sensitive approach to deal with issues concerning educational inequity social exclusion and political hegemony of the privileged social groups The volume provides invaluable insights into post conflict opportunities and challenges for educational reforms that align with inclusive democracy social justice and equitable development **The Sunday School Advocate** ,1846 **Constitution of the New York Sunday School Union Society** New York Sunday School Union Society,1816
