Pericles on Stage Michael Vickers, 2014-05-23 Since the eighteenth century classical scholars have generally agreed that the Greek playwright Aristophanes did not as a matter of course write political plays Yet according to an anonymous Life of Aristophanes when Dionysius the tyrant of Syracuse wanted to know about the government of Athens Plato sent him a copy of Aristophanes Clouds In this boldly revisionist work Michael Vickers convincingly argues that in his earlier plays Aristophanes in fact commented on the day to day political concerns of Athenians Vickers reads the first six of Aristophanes eleven extant plays in a way that reveals the principal characters to be based in large part on Pericles and his ward Alcibiades According to Vickers the plays of Aristophanes far from being nonpolitical actually allow us to gauge the reaction of the Athenian public to the events that followed Pericles death in 429 B C to the struggle for the political succession and to the problems presented by Alcibiades emergence as one of the most powerful figures in the state This view of Aristophanes reaffirms the central role of allegory in his work and challenges all students of ancient Greece to rethink long held assumptions about this important playwright

Fong Jim,2014 Sharing with the Gods examines one of the most ubiquitous yet little studied aspects of ancient Greek religion the offering of so called first fruits aparchai and tithes dekatai from the Archaic period to the Hellenistic While most existing studies of Greek religion tend to focus on ritual performance this volume investigates questions of religious belief and mentality why the Greeks presented these gifts to the gods and what their behaviour tells us about their religious world view presuppositions and perception of the gods Exploiting an array of ancient sources the author assesses the diverse nature of aparchai and dekatai the complexity of the motivations underlying them the role of individuals in shaping tradition the deployment of this religious custom in politics and the transformation of a voluntary practice into a religious obligation By synthesizing a century of scholarship on first fruits practices in Greek and other religious cultures the author challenges prevailing interpretations of gift exchange with the gods in terms of do ut des and da ut dem which emphasize the reciprocal obligatory and sometimes commercial aspects of the gift and explores hitherto neglected notions including gratitude and thanksgiving Drawing on current approaches to gift giving in anthropology sociology and economics in particular the French anthropologist Godelier s idea of debt the volume offers new perspectives with which to conceptualize human divine relations and challenges traditional views of the nature of gift giving between men and gods in Greek religion **Drug Discovery**
