the nature of professional knowledge and philosophical and moral dimensions of teachers thinking *Intelligent Systems and Applications* Yaxin Bi, Rahul Bhatia, Supriya Kapoor, 2019-08-23 The book presents a remarkable collection of chapters covering a wide range of topics in the areas of intelligent systems and artificial intelligence and their real world applications. It gathers the proceedings of the Intelligent Systems Conference 2019 which attracted a total of 546 submissions from pioneering researchers, scientists, industrial engineers and students from all around the world. These submissions underwent a double blind peer review process after which 190 were selected for inclusion in these proceedings. As intelligent systems continue to replace and sometimes outperform human intelligence in decision making processes, they have made it possible to tackle a host of problems more effectively. This branching out of computational intelligence in several directions and use of intelligent systems in everyday applications have created the need for an international conference as a venue for reporting on the latest innovations and trends. This book collects both theory and application based chapters on virtually all aspects of artificial intelligence, presenting state of the art intelligent methods and techniques for solving real world problems along with a vision for future research; it represents a unique and valuable asset. **Integrating Service-Learning and**

Many universities and activist groups are arguing for a global queer community and movement for rights, protection and freedoms for LGBTQ communities. From the academy to the streets, members of the LGBTQ community and their allies are challenging global heterosexism. This special issue of *Wagadu* is dedicated to an interdisciplinary, intersectional, multi-movement and multi-dimensional critique of heterosexism from a global social justice, queer perspective. Regardless of the topic or whether from a practical or theoretical perspective, all authors challenge the current paradigm of heteronormality that exists locally, nationally and/or globally. In this special issue of *Wagadu*, a Transnational Journal of Women's and Gender Studies, **Scissors, Paper, Stone** Martha Langford, 2007-06-27

Finalist Raymond Klibansky Book Prize, Humanities and Social Sciences Federation of Canada 2008. Making a connection between photography and memory is almost automatic. Should it be?
