grant here at the outset that the Doctor was not who he seemed but this shall turn out to be of little import in the tale to come He is as am I but a charge in a wire We were conductors for another force vassals to a vessel This vessel I cannot speak of for some pages however central it will become but I gallop ahead of myself I believe it is important that you see how I came to meet the good Doctor and for you to meet us for who we were Perhaps you will marvel as have I at how chance encounters can be charged with the power to alter the course of one s life or even history In the late eighteenth century the conjurer and amateur scientist Gustavus Katterfelto has made a name for himself travelling across the English countryside with a bag of tricks For audiences his astonishing stunts are pure magic For Katterfelto each one is carefully engineered and executed with the help of his colleague confidante and amanuensis and our narrator Roger Gossage Yet one day in their travels the two men come across a mystifying object beyond their ken a metal horn that emits a disembodied woman s voice She calls herself Siri of Toronto and claims to speak from a place plagued by climate catastrophe and social unrest As they begin to use the horn in their magic shows Gossage and Katterfelto must work to understand the origin and intent of Siri s call a quest that will put them up against the limits of reason and test Roger s allegiance to the man he calls his friend Endlessly inventive richly imagined and entirely its own The Trial of Katterfelto is a consciousness expanding novel that
