## **Background Information:**

### **Author Biography**

John Steinbeck (1902-1968) was born in Salinas, California. He came from a middle class family. His father was the county treasurer, and his mother was a former schoolteacher. She inspired and encouraged his love of books and reading.

He attended Stanford University, but he did not graduate. In his twenties, he traveled to New York City with the dream of supporting himself as a freelance writer. When his efforts failed, he went home to California. He then began to work seriously on novels and short stories.

When Steinbeck was a young adult, he spent his summer vacations working as a hired hand on local ranches. His interactions with the people he met during those summers greatly influenced the characters he created throughout his career. In an interview following the publication of *Of Mice and Men*, Steinbeck revealed that all the characters in the novel are composites based on real people.

Steinbeck said in his essay "Advice For Beginning Writers" (1963) that he still felt afraid every time he began writing a story, even though he had a long successful writing career behind him. He went on to say that a writer who does not experience this fear may not have an appropriate respect for the art of writing.

### **Book Summary**

*Of Mice and Men* was published in 1937. The story epitomizes the themes and ideas that Steinbeck propounded throughout his novels: the plight of the laborers, the perils of isolation, and the hope for a better future. Set in California during the Great Depression, *Of Mice and Men* is an excellent vehicle to learn about the life and times of migrant workers in the 1930s. With its beautiful descriptive passages, easily accessible dialogue, and fast-paced timeline, it is very easy to follow along. Readers are drawn in by the memorable characters, that, ironically, represent a segment of society that was largely ignored in its day. Analyzing the balance of power, the importance of friendship, and the role of dreams in our lives allows readers to gain a deeper understanding of the text while applying valuable lessons to their own lives.

### **Character List**

- **Lennie Small:** a nondescript, hulking creature of a man whose childlike mentality continually gets him into scrapes with men who neither respect nor understand him.
- **George Milton:** a small, lean man, used to fighting for his place in the world. He oversees and protects Lennie.
- **Slim:** a tall skinner (a highly skilled mule-driver) that serves as a counselor to the ranch hands.
- **Candy:** The one-handed ranch worker who has lived past his prime.
- **Curley's wife:** a woman who is not respected by the men on the ranch.
- **Crooks:** the African-American stable buck is called Crooks because of a spinal injury inflicted by a kicking horse.
- **Curley:** the boss' son, he possesses a jealous, cruel streak.

MacDougall, 2013-07-19 Eckstorm was the daughter of a fur trader living in Maine who published six books and many articles on natural history woods culture and Indian language and lore A writer from Maine with a national readership

Eckstorm drew on her unique relationship with both Maine woodsmen and Maine's Native Americans that grew out of the time she spent in the woods with her father. She developed a complex system of work largely based on oral tradition, recording and interpreting local knowledge about animal behavior and hunting practices, boat handling, ballad singing, Native American languages, crafts, and storytelling. Her work has formed the foundation for much scholarship in New England folklore and history and clearly illustrates the importance of indigenous and folk knowledge to scholarship. Fannie Hardy Eckstorm and *Her Quest for Local Knowledge* (1865-1946) reveals an important story which speaks directly to contemporary issues as historians of science, social science, and humanities begin to re-evaluate the nature, content, and role of indigenous and folk knowledge systems. Eckstorm's life and work illustrate the constant tension between local lay knowledge and the more privileged scientific production of academics that increasingly dominated the field from the early twentieth century. At the time Eckstorm was writing, the growth in professionalism and eclipse of the amateur led to a reorganization of knowledge. As increasing specialization defined the academy, indigenous knowledge systems were dismissed as unscientific and born of ignorance. Eckstorm recognized and lauded the innate value of traditional knowledge that could, for example, fell trees in the interior of Maine and ship them internationally as finished lumber. *The Phrenological Journal and Life Illustrated*, 1856
