Bookbinding Franziska Morlok, Miriam Waszelewski, 2018-05-15 This comprehensive reference guide explores bookbinding techniques in start-to-finish detail, explaining all possible options in clear illustrations and easy-to-follow text, making it easy for artists and designers to compare and choose among them. From types of paper to folding methods to all of the available paperback and hardcover bindings to finishing techniques and case studies by contemporary designers, *Bookbinding* is truly the must-have book for professional designers and production staff. *Bookbinding* is also a work of art in its own right, given an award by the Type Directors' Club for typographic excellence. **The New Medium of Print** Frank Cost, 2005 Print is so familiar that it remains invisible to the average person. Frank Cost, associate dean of the College of Imaging Arts and Sciences at Rochester Institute of Technology and co-director of the RIT Printing Industry Center, has often wished for a small fun-to-read book to give to people who were thinking about the world of print for the first time. Most of the available introductory books concentrate heavily on the technology but say little about how people actually use print, let alone why. *The New Medium of Print* is a new kind of book; it provides an introduction to the underlying systems for the creation and distribution of print as well as an exploration of its many and varied contemporary uses. This book is the first in the Printing Industry Center Series, a co-publication of RIT Cary Graphic Arts Press and RIT Printing Industry Center. **Book**

Production Adrian Bullock, 2025-09-30 Now in its second edition, this book offers a comprehensive introduction to book project management and production, including the creation and development of digital products. *Book Production* explains how books and digital products are planned for and managed and why certain processes and raw materials are chosen. Addressing the growing demand for skills and knowledge with which to exploit digital and traditional technology while ensuring ethical, environmentally, and sustainably conscious decision-making across the publishing industry, this second edition pays special attention to green production practices and considers questions such as what makes a green supplier green, what impact different raw material choices have on the environment, and how to deal with waste management. Legal matters, including contracts and risk assessment and mitigation, are also discussed. Throughout the book, case studies are used

to aid comprehension and engagement Ideally suited to advanced students of publishing and book studies Book Production will be of value to anyone working or training to work in or in conjunction with the book industry
