Specification MR D. J. Mannion, 2013-09-02 I've written this book to help all those students taking this module to feel confident with the very basics. Fully understanding these points can gain you some precious marks in the exam which could potentially be the difference to a grade. The topics in FP3 aren't any more abstract than FP2; in fact I personally find the topics in FP3 easier to grasp although harder to fully master. There is another book written before this one which follows the same format covering the FP2 syllabus. So if you find this helpful you might want to check it out. How to use the book is completely up to you; you may use the book in line with a more in-depth textbook using it to clarify any obscure points you may choose to use the book for revision or even as a quick reference for when you get stuck on a practice paper. The book does not contain any specific exercises for you to practice as these can easily be found in other books or in past papers. Instead it shows you a clear and concise method to solve the example questions. OCR Core Maths a and B (MEI) Bob Hartman, Heather Davis, Roger Porkess, 2021 Created to support students and teachers through the OCR Core Maths MEI courses and designed to create confident mathematicians able to apply their learning to a wide range of situations. Written in conjunction with the MEI team to ensure the best possible support for the course. Covers all components from both specifications. Introduction to quantitative reasoning. Critical maths and Statistical problem solving. Innovative approach places learning in context throughout and focusses on learning through practice with a large number of questions, exercises, activities and exam-style questions. Real world examples are used to give students opportunities to apply their learning to different settings including everyday life and the workplace. **Foundation Silver and Gold and Higher Initial and Bronze** Howard Baxter, 2010-09-24 Written to support OCR's Mathematics GCSE Specification B covering the Foundation Silver and Gold and Higher Initial and Bronze units of the course and the updated Assessment Objectives including AO3 Problem Solving. **OCR Year 1/AS Mathematics Exam Practice** Jan Dangerfield, Rose Jewell, Sue Pope, Andrew Roberts, Nick Geere, 2018-03-29 Statistics 3 and 4 for OCR Jane Miller, 2001-08-16 Statistics 3 & 4 is written specifically for the Statistics 3 and Statistics 4 modules of the new OCR Advanced Level Mathematics specification. Mathematical ideas are explained carefully and clearly with many stimulating worked examples. There are plenty of exercises throughout along with revision exercises and mock examination papers all written by experienced examiners. Decision 1 for OCR Janet Crawshaw, Janet Dangerfield, 2005 Focused revision to improve learning for AS and A2 OCR. Decision 2 for OCR Stan Dolan, 2005-05-19 Fully endorsed by OCR and revised to match the 2005 specification this series has been carefully revised by experienced teachers and provides easy-to-use texts. Cambridge Advanced Mathematics for OCR encourages achievement by supporting revision and consolidation through review exercises and mock exam papers written by experienced examiners. The books also explore ideas through practical and computer activities.
