**Education under Siege** Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country s economic success recent UK governments have insisted their reforms are the only way to make England s system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places Education under siege considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system s strengths and weaknesses He concludes that England has some of the best teachers in the world but one of the most muddled systems Challenging the government s view that there is no alternative he proposes radical changes to help all schools become good schools They include a system of schools receiving a fair balance of pupils who learn easily and those who do not ensuring a more even spread of effective teachers as well as banning league tables outlawing selection opening up faith schools and integrating private schools into the state system In the final chapter he asks readers who share his concerns to demand that the politicians alter course The book will appeal to parents education students and teachers as well as everyone interested in the future education of our children Schooltalk Mica Pollock, 2017-02-07 An essential guide to transforming the quotidian communications that feed inequality in our schools from the award winning editor of *Everyday Antiracism* Words matter Every day in schools language is used whether in the classroom in a student teacher meeting or by principals guidance counselors or other school professionals implying intentionally or not that some subset of students have little potential As a result countless students underachieve others become disengaged and ultimately we all lose Mica Pollock editor of *Everyday Antiracism* the progressive teacher s must have resource now turns to what it takes for those working in schools to match their speech to their values giving all students an equal opportunity to thrive By juxtaposing common scenarios with useful exercises concrete actions and resources Schooltalk describes how the devil is in the oft dismissed details the tossed off remark to a student or parent about the community in which she lives the way groups based on race ability and income are discussed in faculty meetings about test scores and data the assumptions and communication breakdowns between counselors teachers and other staff that cause kids to fall needlessly through the cracks or the deflating comment to a young person about her college or career prospects Schooltalk will empower educators of every ilk revealing to them an incredibly effective tool at their disposal to support the success of all students every day their words
