British Museum Catalogue of printed Books ,1896 Jules Simon Philip A. Bertocci,1978 **Wiley and Putnam's Literary News-letter, and Monthly Register of New Books, Foreign and American** ,1844 **General Catalogue of Printed Books** British Museum. Department of Printed Books,1966 Catalogue of the Library of the University of London University of London (Gran Bretaña). Library,1876 **A history of philosophy, from Thales to the present time. Tr. by G.S. Morris, with additions by N. Porter** Friedrich Ueberweg,1874 **History of Philosophy: History of modern philosophy. With additions by the translator, an appendix of English and American philosophy by Noah Porter, and an appendix on Italian philosophy by Vincenzo Botta** Friedrich Ueberweg,1873 **A History of Philosophy, from Thales to the Present Time** Friedrich Ueberweg,1903 **History of Philosophy: History of modern philosophy. With additions by the translator, an appendix on English and American philosophy by Noah Porter, and an appendix on Italian philosophy by Vincenzo Botta** Friedrich Ueberweg,1876 **Applied Sociology** Lester Frank Ward,1906 This work and its predecessor Pure Sociology constitute together a system of sociology and these with Dynamic Sociology The Psychic Factors of Civilization and the Outlines of Sociology make up a more comprehensive system of social philosophy Should any reader acquaint himself with the whole he will find it not only consistent with itself but progressive in the sense that each successive volume carries the subject a step farther with a minimum of repetition or duplicate treatment The central thought is that of a true science of society capable in the measure that it approaches completeness of being turned to the profit of mankind If there is one respect in which it differs more than in others from rival systems of philosophy it is in its practical character of never losing sight of the end or purpose nor of the possibilities of conscious effort It is a reaction against the philosophy of despair that has come to dominate even the most enlightened scientific thought It aims to point out a remedy for the general paralysis that is creeping over the world and which a too narrow conception of the law of cosmic evolution serves rather to increase than to diminish It proclaims the efficacy of effort provided it is guided by intelligence It would remove the embargo laid upon human activity by a false interpretation of scientific determinism and without having recourse to the equally false conception of a power to will it insists upon the power to act Preface

Women Art Critics in

Nineteenth-Century France Wendelin Guentner,2013-03-14 Over the past years studies have begun not only to identify the factors that impeded the full participation of women artists in French cultural life such as women s limited access to professional art education but also to bring to light the considerable artistic accomplishments of women occluded by historians for over a century A similar effort at historical revision has been under way for French women writers Works of fiction that enjoyed many editions in the nineteenth century receded from our field of vision for almost a century before being rediscovered and reissued during the last decades of the twentieth century Such efforts have resulted in scholarship that has helped revise the history of both artistic and literary expression in nineteenth century France Similarly many women in nineteenth century France had their art criticism published both in journal reviews and in book form often for decades in a number of the most influential venues of their day However it is perplexing that they remain almost totally invisible in histories of French culture *Women Art Critics in Nineteenth Century France Vanishing Acts* is the first sustained effort to bring these prolific and influential critics out from the shadows Although each of the chapters in this volume results from an interdisciplinary approach the fact that they are written by scholars in art history and in literature means that there will be inevitable differences in approach and methodology Thus we study the women s reception of specific artworks and aesthetic movements discuss intersections of aesthetics and politics in their essays and the literary styles and rhetorical strategies of individual critics explore the social conditions that allowed or impeded their successes and suggest reasons for their all but disappearance in the twentieth century In bringing to light for twenty first century readers the vanished writings of heretofore unrecognized or underrecognized women art critics the authors hope to contribute to the ongoing revision of women s role in cultural history The multifaceted approaches to word image studies modeled in this book and the many avenues for further research it identifies will inspire scholars in a number of disciplines to continue the work of reinscribing women in the history of cultural life
