science of this recommended dietary approach to reduce cholesterol in addition to other risk factors for cardiovascular disease. With a thorough examination into the scientific rationale for the use of this diet, discussions are included on the experimental findings both for the diet as a whole and its four principle food components: nuts and seeds, plant-based protein, viscous fibers, and plant sterol-enriched foods. Environmental and ethical considerations of the diet are also discussed, showing the ramifications of food choice on health and beyond. Referenced with data from the latest relevant publications and enhanced with practical details including tips, dishes, and menus, the reader is enabled to meet the goals of cholesterol lowering and cardiovascular disease risk reduction while also taking the health of the planet into consideration. Provides the scientific basis for the selection of the foods included in the Dietary Portfolio and the experimental evidence demonstrating cholesterol lowering and cardiovascular risk factor reduction. Provides an understanding of the current guidelines for lowering cholesterol and other risk factors of cardiovascular disease, explaining how the Dietary Portfolio effects these components and compares to other diet-based approaches. Provides a holistic view of the Dietary Portfolio by investigating issues of sustainability and ethics in the food system. Allows readers to acquire the skills to successfully construct a potent cholesterol lowering diet. Includes tips, recipes, and meal planning aids.
